CAPSULE SUMMARY

The Beijing Hotel is renowned both in China and abroad for its elegance and charm, which attract visitors to Beijing from all continents. Those who have come to cherish the Beijing Hotel may be interested to know the history of its founding, of the difficult and tumultuous times it has survived, and of the many transformations it has undergone. They may also be curious to hear some of the anecdotes and the lore which have made the Beijing Hotel a landmark steeped in the history of the city itself.

This booklet traces the 83-year history of the Beijing Hotel since its construction at the turn of the century. Each chapter contains authenticated accounts of the hotel's long tradition of gracious service, comfortable accommodation and elegant furnishings—including its enviable collection of antiques, porcelains and paintings, each rich with historical associations. The booklet also describes the Hotel's universally acclaimed Chinese cuisine, which includes a diversity of classical dishes from the regions of Sichuan, Guangdong, Huaiyang, as well as of the Tanjia Tradition.

Finally, a special chapter is devoted to the memory of one of the hotel's most loyal supporters, the late Premier Zhou Enlai, in commemoration of his great integrity and dedicated service to his country.
