世界文化遗产——明显陵 (The Xianling Mausoleum)

明显陵是明恭睿献皇帝朱祐杬和章圣皇太后的合葬墓, 始建于1519年,建成于1559年,历时40年。其工程之浩大, 规模之宏伟,为中国几千年帝王陵寝之罕见。

明显陵的建筑与环境十分和谐。根据明代帝陵制度"陵制当与山水相应",将松林山四周的山峦河流作为陵区的依托,环护四周,弯曲的流水从陵区蜿蜒而过。松柏森森,流水潺潺,给陵区笼罩上一层庄严、肃稳,也带来一片生机。建筑依山间台地起伏布列,依次为门、亭、望柱、石像生、龙凤门、桥、宫殿、宝城和宝顶,构成了一项建筑艺术和环境美学相结合的完美杰作。明显陵的一陵两家、内外明塘、金瓶状外逻城、龙形神道、九曲回环的御河、众多的祭祀碑等都是历代皇陵中罕见的。

The Xianling Mausoleum of the Ming Dynasty is the mausoleum of the Emperor Zhu Youyuan and his Empress Zhangsheng. And the whole construction of the mausoleum totally lasted for 40 years from 1519 AD to 1559 AD. Furthermore, thanks for its magnificent architecture and huge scale, Xianling Mausoleum of the Ming Dynasty is considered as one most outstanding royal mausoleum of this kind in Chinese history.

In accordance with institutions, the Xianling Mausoleum was constructed to be in perfect harmonious with its surrounding. It is encircled by hills with luxuriant pines and cypressesin them and is crossed by tortuous streams, which add some stateliness and vitality to the mausoleum. The constructions are arranged according to the landforms of this area. They are ranged in an order like this: the gate, pavilions, watch pillars, stone sculptures, doors carved with dragons and phoenix, bridges, the palace, the sacred city, the sacred roof. All these make the mausoleum an excellent work both in architecture and environmental esthetics. Besides, the Xianling Mausoleum of the Ming Dynasty has some peculiar characteristics that make it more treasurable, such as two mausoleums within one, two dykes both inside and outside, the outside wall like golden bottle, the central path with dragon shape, an especially tortuous river, and numerous sacrificial steles.
