绮丽多彩的楚雄

各位尊敬的贵宾，欢迎您光临神奇美丽的彝州——楚雄！

楚雄彝族自治州地处滇中高原腹地，地理区位优势，交通便利快捷，是昆明通往滇西、滇西北旅游区的门户，境内山川秀丽，气候宜人，资源丰富，生态优良。

楚雄彝族自治州素有“世界恐龙之乡、东方人类故乡、中国彝族文化大观园”的美誉，是云南一个独具个性的多民族文化大州，也是闻名遐迩的人类发祥地之一。在这里，相继发现了生活在1.8亿年前的禄丰恐龙化石群，800万年前的禄丰腊玛古猿化石，距今170万年的元谋人化石。彝族先民早在5000年前就在此创造出了彝族十月太阳历，楚雄万家坝还出土了国内迄今为止发现最早的铜鼓。这些写满深邃历史的古生物、古人类化石和古文化，都是具有世界影响力的资源品牌，为全人类共同享有的珍贵文明财富。

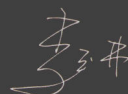

作为全国仅有的两个彝族自治州之一，楚雄彝族自治州在数千年的历史长河中造就了源远流长、博大精深的彝族文化。长篇创世史诗《梅葛》、《查姆》气势恢弘，十月太阳历足可与玛雅文化相媲美。生活在楚雄的60万彝族有多达13个支系，使得楚雄彝族在风俗、歌舞、饮食、服饰、建筑、宗教等方面各具特色，异彩纷呈。

唐宋时期著名的“南诏三十七部”中的罗婺部等多个彝族先民族群，以及汉、苗、回、傈僳、白、哈尼等民族长期以来休养生息于此。明清以来，随着大批汉族移民来到楚雄，汉文化在楚雄逐渐发展起来，少数民族文化与汉族文化在历史的进程中既交融又保持独立的个性，逐渐形成了多元一体、丰富多彩的楚雄文化。

经过多年来坚持不懈的开发和建设，楚雄旅游在滇中大昆明国际旅游区、昆—楚—大—丽黄金旅游线中异军突起，形成了“世界恐龙之乡”、“东方人类故乡”、“中国彝族文化大观园”等强势旅游品牌，并以优良的旅游接待设施，便捷的滇中交通大通道，吸引着越来越多的国内外游客前来旅游观光。

愿这本《旅游楚雄》能引领您走进楚雄人民的家园。当您有缘投入她的怀抱，您可以用您的慧眼和心灵，细细领略和品味她的美丽和精彩。

楚雄彝族自治州旅游局局长

GORGEIOUS CHUXIONG

Dear distinguished guest, welcome to the beautiful & divine land of Yi People—Chuxiong.

Located in the heart of Yunnan plateau and with convenient road traffic network, Chuxiong Yi-nationality Autonomous Prefecture is the gateway to the tourism areas in the west and northwest Yunnan. Chuxiong has a beautiful landscape, pleasant climate, abundant resources and a favorable environment.

Chuxiong Yi-nationality Autonomous Prefecture is regarded as “world dinosaur land”, the place of origin of Asian peoples, and the epicenter of Chinese Yi Culture. It is a large prefecture with unique multicultural characteristics and is one of the famous birthplaces of humankind. 180-million-year old Lufeng dinosaur fossils, 8-million-year old Lufeng Lama Miocene hominoid fossils, and 1.7-million-year old fossils of *Homo Erectus Yuanmouensis* all have been discovered here. The Yi Ten-Month Solar Calendar was created here 5,000 years ago and the earliest dated timbal in China was discovered in Wanjiaba, Chuxiong. The historic fossil remains of paleofauna, palaeohuman, and ancient culture are world-famous and the cultural treasures of all people.

As one of the only two Yi autonomous prefectures in China and with its thousands of years of history, Chuxiong Yi-nationality Autonomous Prefecture is a repository of Yi culture. Epic poems such as “Meige” and “Chamu” are magnificent. The Ten-Month Solar Calendar is comparable in scope and function to the Maya calendar. The 13 sub-groups of 600,000 Yi People living in Chuxiong make for a diverse and colorful set of traditions and customs in singing, dancing, cuisine, costume, architecture, religion, etc.

During the Tang and Song Dynasties, many Yi tribes including one of the famous “37 tribes of Nanzhao” Luowu tribe, lived here together with Han, Miao, Hui, Lisu, Bai, Hani and other nationalities. With the immigration of Han people to the region in the Ming and Qing Dynasties, the local ethnic culture has developed and mingled with Han culture while still keeping traditional characteristics and a multi-integrated and colorful Chuxiong culture has gradually formed.

With continual development and construction, Chuxiong tourism has emerged as a new force in Central Yunnan and especially within the Kunming-Chuxiong-Dali-Lijiang tour route. A tourism brand focusing on the Chuxiong’s unique characteristics as “world dinosaur land”, the place of origin of Asian peoples, and the epicenter of Chinese Yi Culture (Grand View Garden of Chinese Yi Culture), has been developed. The excellent reception facilities and convenient transportation have attracted more and more domestic and international tourists to Chuxiong.

“Chuxiong Tour” will introduce you to the land and people in Chuxiong. If you have a chance to visit Chuxiong, your eyes will be filled with its beauty and your heart will be filled with wonder.

Li Yulin, Director of Tourism Bureau of Chuxiong Yi-nationality Autonomous Prefecture

○和谐美丽的彝州——楚雄

HARMONIOUS & BEAUTIFUL Land of Yi People—Chuxiong ○

神奇而和谐美丽的彝州——楚雄，地处云南省中北部，跨东经 $100^{\circ}43' \sim 102^{\circ}30'$ ，北纬 $24^{\circ}13' \sim 26^{\circ}30'$ 之间，国土总面积29258平方千米，辖楚雄市、禄丰县、武定县、元谋县、牟定县、永仁县、大姚县、姚安县、南华县、双柏县九县一市。

自古以来，楚雄州就有“省垣门户”、“迤西咽喉”、“滇中走廊”、“川滇通道”等美誉，充分体现了其拥有的区位优势。昆瑞高速公路、320国道、108国道、成昆铁路、广大铁路贯穿全境，是云南连接东南亚、南亚国际大通道上的一颗璀璨明珠。

楚雄彝族自治州境内地势大致由西北向东南倾斜，其间山峦叠嶂，诸峰环拱，谷地错落，溪河纵横，素有“九分山水一分坝”

之称。在群山环抱之间，104个面积在1平方千米以上的盆地（坝子）星罗棋布，形成州内一个个规模不同、独具特色的经济、文化区域。境内气候宜人，属亚热带季风气候，年均气温为 $14.8^{\circ}\text{C} \sim 21.9^{\circ}\text{C}$ 。

Lying in the north center of Yunnan, Chuxiong, the divine, harmonious and beautiful land of the Yi, is located between $100^{\circ}43' \sim 102^{\circ}30'$ east longitude and between $24^{\circ}13' \sim 26^{\circ}30'$ north latitude. Chuxiong covers an area of 29,258 km^2 and administers one city and nine counties, including: Chuxiong City, Lufeng County, Wuding County, Yuanmou County, Mouding County, Yongren County, Dayao County, Yao'an County, Nanhua County and Shuangbai County.

Chuxiong Prefecture has been called the “door to

Yunnan's capital”, “throat of Yixi”, “corridor through Central Yunnan”, and “passage between Yunnan and Sichuan” since ancient times, revealing its regional advantage. Kunming-Ruili expressway, state highway 320, state highway 108, Chengdu-Kunming Railway, and Guangtong-Dali Railway all cross the prefecture making it an important location on the international passage way to Southeast and South Asia.

The terrain of Chuxiong Yi-nationality Autonomous Prefecture mainly slopes from the northwest to the southeast, throughout which are mountains, valleys and rivers. It's said that 90 percent of Chuxiong is covered by mountains and waters while the other 10 percent is flatland. Surrounded by mountains, 104 scattered basins (flatland) over 1 km^2 form several unique economic and cultural regions. The subtropical monsoon climate is pleasant and the annual temperature is between 14.8 and 21.9 degree Celsius.

全州动植物资源丰富，有6000多种植物种类，森林综合覆盖率60.69%。常见树种有云南松、华山松、滇油杉、金丝桃、滇橄榄、杜鹃、冬瓜树等；草本植物以香茅、龙须草、野古草、金球花为最多；药用植物以薄荷、大黄、黄连、茯苓最为有名。野生动物中有长臂猿、懒猴、云豹、绿孔雀、黑颈鹤等为国家重点保护的珍稀动物。为保护珍贵的动、植物资源，先后设有哀牢山、紫溪山、狮子山、方山、昙华山等16个自然保护区。进入21世纪以来，以“三区八大基地”即医药工业园区、绿色食品工业园区、特色蔬菜种植园区和优质烟、优质米、中药材、畜牧、林果、茶桑、魔芋、水产养殖基地建设为标志的生物资源开发创新产业初步形成。

作为人类发祥地之一，楚雄彝族自治州有着悠久的历史 and 灿烂的文化。20世纪60年代中期至80年代初，在禄丰发现了生活在800万年前的禄丰腊玛古猿化石，在元谋县发现了生活在300万年前的元谋竹棚人猿超科化石。1965年，在元谋县发现了距今170万年前的元谋人化石，并发现了打制石器和用火

的痕迹，证明元谋人不但完成了从猿到人的进化过程，还掌握了用火技能。1975年，楚雄万家坝出土了迄今为止世界上最早的铜鼓，证明早在2500年前，楚雄地区的先民便创造了以铜鼓为特征的青铜文化。

由于所处的地理环境与历史条件，楚雄彝族自治州文化发展呈现出丰富性、开放性与单一性、封闭性的双重特征。在坝区和交通沿线，由于邻区文化的影响与历代中原王朝的开发，形成了以汉文化为主要特征的地方文化；在山区各少数民族地区，因与外界相对隔绝，保留了彝族等少数民族传统文化。两种文化又长期相互交融、相互影响、相互吸收，最终形成了楚雄州多元一体的民族地方传统文化。

历史文化源远流长。流传至今的有大量彝族人民关于天地万物、人类起源等各种神话、传说和史诗，如《梅葛》、《查姆》等，是中华民族文化宝库中的珍品。从流传至今仍盛行不衰的民族歌舞海洋中，既可以感受到彝族人民对生活的艺术提炼与表现，还可以归纳出丰富多彩的民族民间体育活

动。彝族远古十月太阳历和与此相关的彝族虎宇宙观、阴阳观在其后的历史长河中深深地渗透于中国文化的各个领域。

千里彝山，胜境天成。和谐美丽的楚雄楚雄，近年来在滇中大昆明国际旅游区、昆一楚一大一丽黄金旅游线中异军突起。以古生物、古人类、古文化资源和彝族风情为特征的文化旅游业不断发展，丰富的文物古迹，神奇的自然风光，旖旎的民族风情，正吸引着中外游客纷至沓来。

Chuxiong is rich in natural resources. There are more than 6000 plant species and 60.69% of the prefecture's terrain is covered by forest. Here you can find trees including Yunnan pine (*Pinus yunnanensis* faranch.), Huashan pine (*Pinus armandii* franch.), Yunnan fir (*Keteleeria evelyniana* Mast.), single flower (*Hypericum chinense* L.), emblic leafflower (*Phyllanthus emblica* L.), Sims Azalea (*Rhododendron simsii* Planch), Nepal Alder (*Alnus nepalensis*), etc; famous herbs including mint, rhubarb, coptis, tuckahoe, etc; nationally protected wild animals including gibbon, loris, clouded leopard, green peafowl, black-necked crane, etc. In order to protect precious flora and fauna resources, 16 nature reserves have been established.

including Ailao Mountain, Zixi Mountain, Shizi Mountain (Lion Mountain), Fangshan Mountain, and Tanhua Mountain. Since 2000, new industries based on R&D of bio-resources have been developed. They are collectively referred to as the "3 zones & 8 centers" and include a pharmacy zone, green food industry zone, special vegetable plantation zone, high quality tobacco center, high quality rice center, herb center, livestock center, fruit & forestry center, silkworm & mulberry center, konjak center, and aquaculture center.

As one of the birthplaces of humankind, Chuxiong Yi Autonomous Prefecture has long history and brilliant culture. From the 1960s to the 1980s, fossil remains of the Lufeng Lama miocene hominoid which lived 8 million years ago was found in Lufeng and fossil remains of a hominoid living 3 million years ago was found in Zhupeng, Yuanmou. In 1965, a Homo Erectus Yuanmouensis fossil dating back 1.7 million years was found in Yuanmou County. Evidence of pupose made stoneware and use of fire prove that Homo Erectus Yuanmouensis was not only highly evolved, but also mastered the use of fire. In 1975, the earliest timbal in the world was found in Wanjiaba, Chuxiong, showing that the ancient people's bronze culture in Chuxiong 2500 years ago with the timbal as the symbol.

Due to topographical and historical conditions, the culture development of Chuxiong Yi Autonomous Prefecture was exposed to outside influences that lead to a richness and openness besides of traditional

singleness and closeness. In the flatland areas or along the road, local culture was influenced heavily by Han culture, with some influence from neighboring cultures, and developed along with prevailing changes from dynasty to dynasty. In the mountainous areas, the Yi were more isolated and their ethnic culture remained more traditional. These two Yi cultures overlap and intertwine and form the unique and integrated local ethnic culture of Chuxiong Prefecture.

During the long history of the Yi People, many myths, legends and epics about the world and the origin of humans have been passed down. Two such famous ones are "Mei Ge" and "Cha Mu", which are Chinese cultural treasures. From the sea of ethnic songs and dances, you can feel how the Yi people express their lives via art. They also have many local traditional games and sports. The ancient Ten-Month Solar Calendar created by Yi people and Yi people's tiger universe views and Yin-yang theory infiltrate every field of Chinese culture in long history.

The Yi people live in a place of natural mountainous beauty. Chuxiong has emerged as a new force in the central Yunnan tourism and in the Kunming-Chuxiong-Dali-Lijiang tour route. Rich in ancient culture, cultural tourism has developed continually in recent years. Cultural relics and historic sites, gorgeous natural landscapes, and charming ethnic customs are attracting more and more domestic and international tourists.

有多少时光的故事在此穿梭？有多少古老的痕迹在此徜徉？亿万年前的恐龙，170万年前的元谋人，用150万年光阴生长的元谋土林，5000年前的历法，以及悠悠岁月繁衍出的彝族文化……时光早已流逝在风中，永恒不变的是那昔日的容颜，以化石般的坚硬，烙在每一个人的心间。

How many stories played out in the long human history of the area? How many traces of the ancient world live here? Dinosaurs of hundreds of millions years ago, Homo Erectus Yuanmouensis of 1.7 million years ago, the Yuanmou Earth Forest formed over the course of 1.5 million years, a calendar created 5000 years ago, and Yi culture developing and evolving over much of that time... Time flies away while the eternal culture imprints in everybody's heart as hard as fossil.

恐龙是强势的 它曾经主宰地球两亿年

恐龙是奥秘的 它从地球上消失了六千五百万年

恐龙是永恒的 它恭候着龙的传人破解六千五百万年前的奥秘

在中国，“禄丰”是恐龙的代名词。在禄丰，有43万居民把恐龙作为自己的图腾崇拜。中国人习惯把禄丰叫做“恐龙之乡”，世界恐龙专家把踏上禄丰盆地、探寻恐龙之谜作为自己生命的荣耀和使命。

恐龙，这个词总是包含了太多未知的神秘和探索的吸引。曾经是地球霸主的它们，那么强大无敌，主宰了世界一亿六千多万年，为何又会突然灭绝？恐龙的身上有着太多神奇的地方，太多不为人知的秘密。还未解开的谜总有最大的吸引力。想要掀开恐龙神秘的面纱，想要揭开恐龙之谜，我们只有从最早发现它们的地方开始。

Dinosaurs are influential; they had dominated the Earth for 200 million years;

Dinosaurs are mysterious; they vanished from the Earth 65 million years ago;

Dinosaurs are eternal; they await the heirs of Dragons to decipher the mystery 65 million years before our times.

In China, Lufeng is intrinsically associated with dinosaurs. 430,000 residents regard dinosaur as totem to worship in Lufeng. Chinese refer to Lufeng as Dinosaur Land. Many paleontologists from around the world consider visiting Lufeng Basin and exploring the mysterious region as a high point of their careers.

Once the overlords of the planet, mighty and invincible, dinosaurs had dominated for more than 160 million years. How did they suddenly vanish? The many unsolved mysteries of the age of the dinosaurs draw many people to Lufeng. To find the secrets of dinosaurs, one must start from the place where they were discovered first.
