前言

我国耐火材料工业诞生在20世纪初,然而在旧中国半个世纪中,它一直处于品种单一、设备简陋、且依附于其他产业的落后状态,1949年全国耐火材料产量仅7.4万吨。

新中国成立后,我国耐火材料工业迅速发展壮大。从1953年到1980年,国家在全国各地先后建设了一大批耐火材料厂,成为当时我国耐火材料工业的骨干;与此同时,国家还建立了具有雄厚技术力量、较先进、完善的科研设计手段的鞍山焦化耐火材料设计研究院和洛阳耐火材料研究院等专业科研设计院所,并在天津、鞍山、武汉、西安、山东等一批高等院校中设立了耐火材料、硅酸盐、无机非金属材料专业,从而建成了从高等教育、科研、设计到生产的,完整的中国耐火材料工业体系。这期间全国耐火材料产量从1957年的101万吨,发展到1980年的414万吨,产品涵盖了酸性、中性、碱性全部耐火材料领域,彻底改变了旧中国时期耐火材料的落后面貌,满足了钢铁、建材、有色金属、化工等一些涉及高温技术工业部门发展对耐火材料的需求,从而使我国耐火材料工业开始以一个崭新的独立产业部门出现在国民经济的舞台。

1980年以来,在改革开放方针指引下,我国耐火材料工业开始进入了一个新的历史发展阶段。

以宝钢、大型水泥回转窑、金川、贵溪有色冶金等一批国家重点引进项目建设及其用耐火材料国产化为契机,通过引进先进技术和关键装备,国家又改建了一批耐火材料厂,行业技术进步取得了长足发展,品种质量实现了质的飞跃,一大批适应高温工业急需的优质耐火材料的相继问世,保证了国家重点项目的建设。

1985年以来,我国乡镇耐火材料企业“异军突起”,他们发挥出“熟悉市场、机制灵活”的优势,迅速成长并进入了国内耐火材料工业的主战场,为行业发展注入了巨大的活力。

据统计,1992年全国乡及乡以上耐火材料企业已达1447家。全国耐火材料年产量首次突破千万吨,达到1002万吨。

随着我国社会主义市场经济体制的建立,我国耐火材料企业发生了深刻的变化:国有企业大多已按《公司法》改制为股份制企业,有的已改为民营,其中原属于钢铁公司的耐火材料厂,大多已改制为面向市场、自主经营、自负盈亏的子公司体制;广大乡镇企业从租赁承包、股份合作直到进行股份制改革,强化了科学管理,正在经历着二次创业的成长——成熟期,他们中许多已具有相当的实力。

在市场经济“优胜劣汰、适者生存”的机制作用下,一批不能与时俱进的昔日的骨干企业,已相继退出市场,而经过市场激烈竞争考验的佼佼者,已经和正在成为当今中国耐火材料工业的骨干力量。

为了适应政府职能转变的需要,中国耐火材料行业协会于1990年10月成立,它是在国家主管部门的指导下,通过服务、协调、自律、监督,坚持为企业服务,为政府和社会服务的中介性民间社团,行业协会的成立,揭开了我国耐火材料工业发展历史的新篇章。

当前,我国耐火材料生产能力约1400万吨水平,企业逾千家,2002年,据对全国30个省(市)、自治区886家耐火材料企业的统计,全国耐火材料产量1177万吨,固定资产(净值)93.4亿元,产品销售收入252亿元,实现利润14.2亿元,职工18.237万人,工业总产值(不变价)262.38亿元,是世界耐火材料第一生产大国。

“努力加强国际合作”是我国耐火材料工业的既定方针。中国加入WTO,为我国耐火材料工业更好地参与国际经济技术合作提供了舞台。近年来,我国耐火原材料进出口贸易活跃,外商投资与日俱增,国际交往频繁;我们希望在“诚信”“互利”基础上进一步加强与海外广大朋友的经贸合作,共同努力营造世界耐火材料工业的美好未来。

《中国耐火材料工业企业名录》(中英文对照本),是中国耐火材料行业协会与冶金工业出版社共同组织编辑出版的大型工具书。全书共分为前言、中国耐火材料行业协会简介、协会职能、企事业单位风采、协会会员单位名录,以及1997~2002年中国耐火原材料进出口情况、2001~2002年全国耐火材料产量等部分,约30万字,图文并茂,内容翔实,对有关政府部门及国内外广大企业家、科技人员、市场营销人员等均有较大参考价值。

由于本书编译者水平所限,书中欠妥之处在所难免,恳请读者斧正。

PERFACE

Chinese refractory industry was established in the early 20th century. However, it had been in the laggard state of single variety, humble equipments and hanging on other industries for about half a century before the establishment of China. And in 1949, all Chinese refractory output was just 74,000 metric tons.

After the establishment of P.R. China, our refractory industry has been developed and thriven rapidly. From 1957 to 1980, we had setup a number of refractory factories, which were the backbone of the industry at that time. At the same time some professional science and technology design and research institutes and academies with strong technical forces and advanced and complete instruments of scientific research and design had been founded such as Anshan Institute of Coking and Refractories Design and Research and Luoyang Institute of Refractories Research (LIRR), as well as refractory-silicate-inorganic nonmetal material major had been setup in some colleges in Tianjin, Anshan, Wuhan, Xi'an, Shandong and etc.

From then on the complete system of Chinese refractory industry from high education, scientific research, design to production has been formed. In this period the whole national annual output of refractories had been increased from 1.01 million metric tons of 1957 to 4.14 million tons of 1980 and refractory products had covered allover the fields of acid, neutral and base refractories, which changed the laggard state of refractory industry in the old society of China and met the refractories demand of the development of the high-temperature technology industries including iron & steel, building materials, non-ferrous metal and chemistry industries. And our refractory industry began to appear in the stage of national economy as a wholly new independent department.

Since 1980 under the direction of the policy of reform and open, Chinese refractory industry has entered into a new phase of development.

Seizing the opportunity of construction of a batch of national key introduced projects such as Baosteel, large scaled cement rotary kiln, non-ferrous metal engineering of Jinchuan and Guixi and so on, and the domestication of related refractories, we reformed a group of refractory factories by introducing advanced technology and key equipments resulting in great development of refractory industry and thorough changes of varieties and quality as well as the presence of a lot of high-quality refractories suitable for the high-temperature industry, which guarantee the construction of national key projects.

Since 1985 as a new force county and town enterprises of refractory have grown quickly and entered into the main battlefield of refractories taking their advantages of knowing market well and flexible mechanism, which injected great vigor into the refractory industry. According to the statistics, the number of refractory enterprises of or above county level of whole nation has come up to 1447 and the national annual output firstly surpass ten million metric tons reaching 10.02 million tons.

With the establishment of socialist market economy of China, great changes have taken place in China refractory enterprises. Most of state-own enterprises have been reformed into stock companies according to Company Law and some into private own enterprises. Most of refractory factories, the subsidiaries of iron & steel companies, have been changed into sub-companies, which are dominated by market, independently manage, keep separate account and assume their own responsibility for the profits or losses. Many county and town enterprises have gone through a series of reforms from tenancy and contract, stock cooperation to the reformation of joint stock, which strengthened the scientific management. At present they are starting the second undertaking and most of them have great strength.

With the function of market economy mechanism of "survival of the fittest", a group of key refractory enterprises that could not keep up with the times, have dropped out market; while those victors who survived in the fierce market competition, have become or are growing into the backbone of China refractory industry.

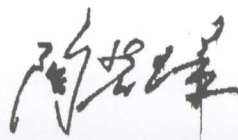

In order to meet the demand of the transformation of government function, the Association of China Refractories Industry was established in Oct. of 1990, which is an intermediary folk league serving enterprises, government and society under the guidance of government and through service, coordination, self-discipline and supervision. Its establishment has opened the new chapter of the development history of China refractories industry.

At present the annual production of whole nation capacity is about 14 million metric tons; the number of refractory enterprises is over one thousand. According to the statistics of 886 refractory enterprises of over 30 provinces (or cities) and autonomous regions in 2002, the whole national annual refractories output is 11.77 million metric tons; the fixed assets (net value) is RMB 9.34 billion yuan; sale income is RMB25.2 billion yuan with the profit of 1.42 billion yuan; the number of employees is 182,370; gross industry product is RMB 26.238 billion yuan. So the refractories output of China was the biggest in the world.

To endeavor to strengthen international cooperation is the fixed policy of China refractory industry. China's entering into WTO provides China refractory industry a stage to more easily participate in the international economy and technology cooperation than before. In recent years our trade of refractories of import and export is very flourish; and the foreign investment increase steadily; the international intercourse gets more and more frequently. We wish to strengthen further the international technology and trade cooperation and try our best to create the bright future of China refractory industry.

The List of China Refractories Enterprise (Bilingual Chinese and English Edition) is a large sized reference book published by the Association of China Refractories Industry (ACRI) and China Publishing Company of Metallurgy Industry. This book consists of Preface, the brief introduction of ACRI including functions of ACRI, stories of enterprises, the list of membership bodies, and the import and export of refractory raw materials of China from 1997 to 2002 and the output of refractoris of China, totaling 300,000 words. It has excellent pictures and essays as well as full and accurate contents, which are of great value of consultation for the related governmental departments, enterpriser both at home and broad, technology and marketing personnel and etc.

It is hard to avoid some mistakes so please readers make corrections!

Chairman of ACRI
3,2003

中国耐火材料行业协会简介

中国耐火材料行业协会(以下简称中国耐材协会)是在国家主管部门指导下,联合国内钢铁、建材、轻工、有色、化工等部门内的耐火材料企、事业单位,在自愿基础上跨部门组成的、具有社团法人资格的全国耐火材料行业中介性民间团体。

中国耐火材料行业协会于1990年经民政部批准注册登记,同年10月7日正式成立,成为由国家经贸委主管,中国钢铁工业协会代管、独立承担民事责任的全国性团体法人。协会成立以来,在国家指导下,坚持为企业服务、为政府和社会服务,积极向企业宣传、贯彻国家有关方针政策,进行行业调查,向政府反映行业的建议和要求,协助政府制订耐材行业发展规划、政策、建议,组织会员制订行规公约;针对当前企业间存在的恶性价格竞争,积极组织开展行业价格自律,组织优质耐材产需衔接活动,努力规范耐材市场秩序,维护企业的合法权益;举办各种培训班、企业改革经验交流会和技术研讨会、新产品推广会、展览会,组织开展国内外经济技术交流与合作等。

服务、协调、自律、监督,协助政府实施行业管理和维护行业、企业的合法权益,是行业协会的天职。中国耐材协会成立10年来,努力发挥了政府和企业间的“桥梁”、“纽带”作用,并于1998年荣获中国工业经济联合会颁发的“全国先进工业行业协会”称号。

中国耐材协会现有团体会员单位187个,分布于东北、华北、华东、中南、西南、西北地区,囊括了钢铁、建材、有色、化工、轻工等部门内的主要耐火材料企、事业单位。此外,在河南、湖南、山东、山西、江苏5省还成立有省级耐材协会,受中国耐材协会的指导。

中国耐材协会的最高权力机构是会员大会(或会员代表大会),理事会为会员大会(或会员代表大会)的执行机构,常务理事行使理事会闭会期间的协会日常领导职权。协会理事、常务理事、副会长、会长均经会员民主选举产生,任期4年。协会现届理事会是于1999年9月25日经协会第三次会员代表大会选举产生的。第三届理事会和常务理事会,分别由72名理事和30名常务理事组成。

协会设秘书处,下设规划及生产协调部、经济协调部、企业管理部、国际合作部、信息部、技术质量标准部、原料部及协会办公室,分别挂靠在一些会员单位,各业务部工作由协会秘书长统一协调。

Brief Introduction

The Association of China Refractories Industry (ACRI), founded in 1990, is a non-governmental intermediary body with legal person qualification, under the guidance of the State competent authorities, on the basis of uniting refractories enterprises and institutions from the industries of iron and steel, building materials, light industry, non-ferrous, chemistry and etc.

Since its establishment, ACRI has, under the guidance of the government, performed its duty in the aspects of enterprises administration and safeguarding the legitimate rights and interests of enterprises, and has acted as the "bridge" and "link" between government and enterprises. For this purpose, ACRI was, in 1998, awarded the title of "National Model Association" issued by the China Association of Industry and Commerce.

ACRI consists of membership bodies of 187, which are distributed in almost all provinces and autonomous regions in China, involving main refractories enterprises and institutions in the industries of iron and steel, building materials, nonferrous, chemistry, light industry etc., Meanwhile, ACRI has branch associations set up in five provinces of Henan, Hunan, Shandong, Shanxi and Jiangsu.

The Membership Bodies Congress is the highest organ of ACRI. The executive council is the executive organ. The directors, standing members, vice president and president are all elected democratically for a term of five years. The present executive council came into being by election in the Third Membership Bodies Congress in 1999. Now ACRI has 72 members of executive council and 30 standing members.

Under the ACRI, there are a secretariat and an office and 7 departments such as Planing and Coordinate Dept., Financial Coordinate Dept., Enterprise Administration Dept., International Liaison, Information Dept., Technical Quality and Standard Dept. and Raw Materials Dept., Which are registered at membership bodies respectively and the work of each department is carrying out under the coordination of secretary of ACRI.

中国耐火材料行业协会职能

摘自“中国耐火材料行业协会章程”

(1999年9月25日第三次会员代表大会通过)

(1999年12月17日经国家冶金工业局审查批准,民政部核准)

- 一、开展行业调查,研究耐火材料行业发展问题,提出耐火材料行业发展规划、政策、立法方面的建议,并参与有关活动;
- 二、经政府部门授权和委托,对耐火材料领域的重大技术改造、技术引进、投资与开发项目进行前期论证;
- 三、向政府及有关部门反映会员要求,维护会员的合法权益;
- 四、经政府主管部门同意和授权,进行耐火材料行业统计,收集、分析、发布耐火材料行业信息;
- 五、制定行业职业道德准则,行规行约,规范行业行为,加强行业自律,维护公平竞争,协调同行间有关耐火材料的价格争议;
- 六、创办行业出版物,开展技术咨询服务,为会员提供国内外耐火材料技术经济情报和市场信息,介绍耐火材料行业“两个文明”建设的经验和成果;
- 七、参与制订、修订耐火材料国家标准、行业标准和服务标准等,组织贯彻实施并进行监督;
- 八、参与耐火材料企业生产、经营许可证发放的有关工作,参与资质审查;
- 九、经政府部门同意,参与质量管理和监督工作,协助会员单位健全质量管理体系,搞好质量认证;
- 十、引导耐火材料行业和企业不断优化结构,采取正确的经营决策和投资方向,努力开拓国内外市场,提高行业自我发展能力和企业经营管理水平;
- 十一、受委托组织耐火材料科学技术成果的鉴定和推广应用;
- 十二、举办耐火材料专业培训班、耐火材料学术专题讲座及研讨班,采取多种形式为企业培养有关耐火材料生产和管理的专业人才,提高耐材行业的整体素质;
- 十三、组织耐材产品展览会,耐材产需衔接会,耐材科技成果推广会等,促进本行业的产品销售和技术交流合作,参与国内涉及耐火材料领域的产品市场建设;
- 十四、维护国家和我国耐材行业的利益,组织会员单位协调耐材产品产量、品种布局、销售价格等事宜,协助会员单位之间开展经济技术合作和经济联合;
- 十五、发展与国外、境外耐火材料同行的联系,开展经济、技术、学术诸方面的合作与交流,在发展对外出口、利用外资、引进技术等方面,促进国内耐火材料企事业单位形成行业统一立场;
- 十六、发展耐材行业和社会公益事业,开展中国耐火材料行业协会宗旨所允许的各项活动;
- 十七、承担政府和有关单位的其他任务。

Functions of Association of China Refractories Industry

1. Investigating the problems on development of refractory industry, bringing forward developing layout, policy and proposal in legislation of the industry.
2. Carrying out prophase feasibility study on important technical reconstruction, technical introduction, investment and exploitation items in refractory field.
3. Subjecting the requirements of the members to the government and the concerned authorities.
4. Carrying through statistics of refractory industry; collecting, analyzing and issuing information of the industry.
5. Drawing out the business morality rules and regulations of the industry to standardize the industry department, strengthening the industry self-discipline.
6. Publishing the industry news and offering technical consulting service.
7. Participating in drafting and revising national standards, industrial standards and service standards of refractories.
8. Participating in the work of issuing production and management license of refractory enterprises.
9. Participating in the work of quality control and supervision.
10. Guiding the industry and the enterprises to optimize production structure, to adopt right management decision and investment direction and to strive for exploiting market home and abroad.
11. Organizing appraisal and promoting the application of refractory technology achievement.
12. Holding refractory training classes, lectures and seminars of refractory science.
13. Organizing refractory products exhibition, joint meeting between suppliers and the users.
14. Coordinating the matters concerned with production output, variety distribution and selling price.
15. Contacting with the enterprises of the same trade home and abroad, making cooperation and intercourse in economy, technology, science and other aspects.
16. Developing commonweal of refractory industry and the society.
17. Undertaking other tasks assigned by the government and the related units.

中国耐火材料行业行规公约

(2000年4月5日第三届理事会第二次会议通过)
(2000年4月28日国家冶金工业局批准)

第一章 总则

第一条 为维护行业的声誉和行业、企业的合法权益，保证中国耐火材料行业健康发展，依照《中华人民共和国价格法》、《中华人民共和国反不正当竞争法》、国家经济贸易委员会《关于加快培育和发展工商领域协会的若干意见（试行）》等国家有关法律、法规和《中国耐火材料行业协会章程（1999年12月17日民政部核准）》特制定本行规公约（以下简称：规约）。

第二条 本规约在国家主管部门的领导和支持下，以建立行业和企业自律机制，规范行业和企业生产经营行为，提高企业整体素质，树立企业良好形象为宗旨，是行业协会加强行业自律管理的重要组成部分。

第三条 凡在中国境内从事耐火材料生产、经营的企业，都应遵守本规约；中国耐火材料行业协会会员应带头模范自觉遵守本规约。

第四条 中国耐火材料行业协会常务理事会负责行业规约的制（修）定、实施、监督、检查和管理工作的。

第二章 行业道德

第五条 坚持执行企业生产、经营、服务等有关规范，提倡文明生产，文明经商，优质服务，自觉规范企业耐火材料生产经营管理行为。

第六条 提倡行业团结、互助、协调，共同承担耐火材料市场责任，发挥行业整体优势，对企业在生产经营活动中出现的困难和问题，采取研讨、协商等方式解决。

第七条 遵纪守法、廉洁奉公、讲求信誉、自尊自爱，自觉维护行业的形象和精神文明建设。

第三章 行业规约

第八条 在耐火材料生产经营活动中，要遵循公开、公平、诚实、信用和正当竞争的原则，严格执行国家有关法律法规，自觉维护市场秩序。

第九条 严格企业生产工艺、技术、质量等标准和规范，坚持质量第一，用户至上，禁止采购、生产、销售不合格产品，保证企业产品出厂质量保证书中对用户的承诺。

第十条 坚决执行国家“价格法”和“反不正当竞争法”，坚持优质优价，明码实价，称准量足，禁止用不正当手段损害其他经营者和消费者的利益。

第十一条 在耐火材料生产经营活动中，禁止行贿受贿行为。

第四章 规约管理

第十二条 中国耐火材料行业协会每年对执行规约情况进行检查，对模范执行规约的突出单位及法定代表人给予通报表扬，并以多种形式在行业内外进行公开表彰宣传。

第十三条 中国耐火材料行业协会办公室负责接待和受理单位与个人的信访、举报，并报请会长批准，做好处理工作。

第十四条 对违反规约行为者，以批评教育为主，对继续违反规约者将采取内部通报、行业曝光、道德谴责、行业警告直到开除会籍，对情节严重者建议政府有关部门给予警告，严重警告，直至法律起诉，以维护规约的严肃性。根据中国耐火材料行业协会的发展情况，将随时调整对行业内违反规约行为者的处理办法。

第十五条 凡不服处理的可以提出复议意见，由协会组织进行调查并提出报告交由常务理事会审议。

第五章 附则

第十六条 中国耐火材料行业协会会员均应自觉遵守协会章程，执行协会决议。应把维护协会的形象、促进协会团结、积极参加协会组织的各项活动，积极完成协会委托的工作和协会章程规定的其他义务作为自己的责任。协会理事、常务理事，肩负行业重托，应带头模范执行。

第十七条 本规约经中国耐火材料行业协会理事会审议通过，报国家主管部门批准后执行。

第十八条 本规约解释权属中国耐火材料行业协会常务理事会。

第十九条 本规约如有与国家政策法规相抵触，以国家政策法规为准。

郑州远东耐火材料有限公司

Zhengzhou Yuandong Refractory Co., Ltd.

总经理 龙沾卫
General Manager:
Long Zhanwei

我公司创出了“大阳”牌电熔耐火材料的优质品牌。以氧化法“AZS-33号、AZS-36号、AZS-41号”为主导产品。

我们，装备了先进的WVDT-V型微机控制的5t专用电弧炉和大型组装平台及数台加工设备，足以保证年产4000t的生产加工能力；拥有较全面的化验检测手段，能很好地指导我们对产品的各项指标和每个细微生产环节进行把关；科学的管理使我们顺利地通过ISO9001国际质量体系认证。

公司宗旨：以质量求生存，以管理求发展。

Zhengzhou Yuandong Refractory Co., Ltd. created the "Dayang" brand for high-quality electro-cast refractory. The oxidation processed AZS-33#, AZS-36# and AZS-41# are its main products.

The plants are equipped with 5 tons special electric arc furnace controlled by WVDT-V computer and the large scaled assembling platform with machining devices ensuring the annual capacity of 4000 tons available. The company also has more complete testing devices to control every link of process and the every property of the products. It has gained the certification of ISO9001 quality identification system by virtue of its scientific management.

The tenet of the company is to subsist by supplying high-quality products and to develop itself by means of effective management.

淄博红阳耐火保温材料有限公司

ZIBO HONGYANG REFRACTORY AND INSULATING MATERIALS CO., LTD.

山东淄川耐火纤维一厂

SHANDONG ZICHUAN FIBER No.1 FACTORY FIRE-RESISTANT

董事长总经理：孙启宝携全体员工向各国朋友致意！

BORAD CHAIRMAN & GENERAL MANAGER, MR SUN QIBAO, ON BEHALF OF HIS STAFF, EXTENDS HIS WARMLY WELCOME TO FRIENDS OF VARIOUS CIRCLES.

Zibo Hongyang Refractory and Insulating Materials Co., Ltd. built on the base of Shandong Zichuan No.1 Refractory Fiber Factory has been engaged in researching and manufacturing refractory fiber for more than 30 years. With over 30 years' development it has become a modern company group. In 2002 we passed the authentication of ISO9002: 2000 quality identification system.

We now have three large-scale manufacturing bases and a R&D center, with six international continuous melting lines, six vacuum forming fiber lines, two fiber-textile and module lines, two dry formed resin product lines, one alumina crystal fiber line and one fiber paper line. The annual output of fiber cotton, needle blanket, board, paper, combined block and textile is more than 18,000 tons. We are doing better and better in the creation, producing, designing, quality guarantee, after service with the cooperation with authoritative technical research organization. We have built up the reputation from the customers of the industries of power, petrochemistry, metallurgy, building materials, machinery and aerospace etc.

The market of our market covers all provinces and cities of China as well as Japan, South Korea and Argentina etc.

淄博红阳耐火保温材料有限公司是在原山东淄川耐火纤维一厂的基础上改制组建的规范化股份制企业，致力于研发和生产耐火保温材料系列已有三十余年的历史，近年来，通过不断的改革奋进已发展成为具有相当规模的现代化企业集团。2002年，顺利通过 ISO9002(2000版) 国际质量保证体系认证。

红阳公司现已具备3大生产基地、1个研发中心，具有国际先进连熔连用生产流水线6条，真空成型纤维制品生产线6条，纤维纺织、组合块生产线2条，干法树脂制品生产线2条，晶体氧化铝纤维生产线1条，纤维纸生产线1条，年产普通、标准、高纯、高铝、含锆型及晶体纤维等类型的纤维棉、针刺毯、毡、板、纸、组合块及纺织品18000余吨。多年来坚持与权威性技术科研单位精诚合作，成果共享，使其产品在研发创新、生产设计、质量保障、售后服务等方面不断精益求精、永立潮头。先进的生产装备，雄厚的技术力量，完善的全面质量管理和优质服务，赢得了电力、石油、化工、冶金、建材、机械、航天等各行业用户的一致好评。

公司现有销售市场覆盖全国各省市，并出口到日本、韩国、阿根廷等国家。

江苏苏嘉集团新材料有限公司始建于1986年，经过十余年的发展，目前已经成为集生产经营、服务、科研于一体的集团化企业，是中国知名的综合性耐火材料企业之一。

苏嘉主要产品：各种镁碳砖、不定形耐火材料以及连铸用滑板、长水口、浸入式水口、塞棒等产品。产品主要应用于钢铁行业的电炉、转炉、钢包及中间包等设备，不仅在宝钢、首钢、马钢、南钢等国内各大钢厂广泛使用，还大量出口到美国、日本、俄罗斯、欧洲和东南亚等国家和地区。

苏嘉公司在提供优质产品的同时，还依靠强大的设计能力为用户提供全套的耐火使用方案，使耐火产品在使用中可以达到理想的整体效果，尽可能地降低耐火材料单耗，使客户具有更强的竞争力。此外，苏嘉还组建了一个完善的售后服务网络，为产品的安装和维护提供必要的支持。

经过苏嘉全体员工不懈的努力，苏嘉公司已在耐火材料行业树立了优秀的品牌形象，赢得了很高的声誉。

请记住：苏嘉所做的不仅是带给您优秀的产品，更多的是带给您满意的体验！

Jiangsu Sujia Group New Materials Co., Ltd. established in 1986, is one of the key comprehensive refractories enterprises of China. After over ten years of development it has now become a collectivized corporation integrated with production, sales, service and research.

Main products include various magnesia-carbon bricks, monolithic refractories, and sliding plate, submerged nozzle monolithic stopper for con-casting, which are widely applied in EAF, BOF, ladle and continuous casting unit of many large-scale iron and steel companies

such as Baoshan Iron and Steel Group Company, Capital Iron and Steel Group Company, Ma'anshan Iron and Steel Group Company, Nanjing Iron and Steel Group Company and etc. In addition our products are also exported to USA, Japan, Russia, Europe, and Southeast Asia.

Depending on excellent refractory design, Sujia Corp. is able

to provide a complete refractory solution package to every customer both at home and abroad so as to optimize the integrated performances of the refractory products, which will greatly reduce the refractories costs so that our customers have stronger competence. Furthermore, we have set up an after-sales service network to provide customers complete services of installation and maintenance.

With the continuous efforts of every Sujia employee, we have won high reputation in the refractories industry.

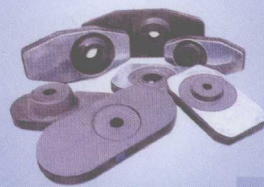

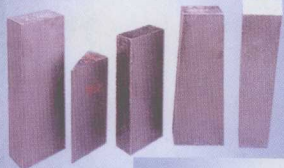

Please bear in your mind: Sujia Corp. not only delivers high-quality products, but also provide you satisfying experience.
