High Quality Material

- ★ Due to the strong spring used in the switch, it satisfactorily meets the international quality standard, even after 80,000 operations.
- ★ The silver pin, silver contact and silver copper alloy moving contact increase the conductivity and avoid oxidation.

High Quality Material

- ★ The nylon back plate with high insulation qualities guarantees durability. After 10,000 plug insertions the socket remains safe for normal operation.

High Quality Material

- ★ Our impact resistant polycarbonate front plates are flame-resistant and heatproof. They can resist any adverse conditions.

企业简介

东莞市奇声电子实业有限公司位于广深高速公路与东江水系的交汇地段,毗邻广州经济技术开发区,是一家集科研、开发、生产、销售、服务为一体的影音主流企业。公司自1992年成立以来,经过近十年的发展,目前拥有员工二千多名,厂房占地面积数十万平方米,是国内家庭影院生产规模最大的企业之一。

奇声公司具有雄厚的科技开发与生产能力,专业生产“QiSheng® 奇声®”牌VCD、超级VCD、DVD、功率放大器、均衡器、卡座、数字调谐器、音箱、话筒等九大系列200多个型号的各类家庭影院产品。产品性能优越、质量可靠,先后荣获“连续五年产品质量信得过企业”、“消费者信得过产品”、“中国公认名牌”、首届“羊城音响精品博览会”金奖等20多项荣誉称号,是中国电子音响工业协会第一批授权使用“A”字标志企业。产品分别通过了生产许可认证、长城电工安全认证、CE认证等国内外权威认证。于2001年7月份一举通过ISO9001:2000国际质量体系认证,成为同行业中通过该认证的少数企业之一。

奇声公司一直以振兴民族品牌为己任,以其特有的高可靠性和高性价比等众多优点占领了高份额的国内影音市场。随着企业的不断发展壮大以及全球经济一体化的到来,奇声公司已不满足在国内所取得的各项荣誉,把发展目光瞄准了前景广阔的海外市场。目前,奇声产品受到越南等东南亚各国人民的热烈欢迎而畅销于当地市场,在消费者心目中享有相当高的知名度和美誉度。为进一步扩大在国际影音市场的影响力,奇声公司在多个国家进行了商标注册申请,并成立了专门的外贸部门来开拓海外市场,积极在海内外寻找外贸合作伙伴。将以高科技的产品、严谨的生产工艺、完善的企业管理制度来迎接全球各地贸易伙伴的合作以及消费者的挑选。

奇声电子把“三零”(零库存、零缺陷、零投诉)作为对自己的要求,公司制订了详细的材料检验标准,对原材料品质严格把关,生产过程对产品品质严格执行“品质第一”的原则,保证不让任何一台不合格的产品出厂。奇声产品不但质量过硬,而且有着完善的销售和售后服务体系,服务网点遍布全国城乡,随时随地为消费者提供优质的服务。正是凭着优质的产品和服务,奇声在短短几年内迅速成为市场上的佼佼者,至今已家喻户晓,成为人们心目中优质产品和服务的象征。

“以人为本”是奇声成功的基石和根本,真正做到“唯才是举”是奇声能够迅速发展壮大的根本原因。多年来,电子工业界的精英和有识之士不断被吸引过来,从而形成了奇声强大的产品开发能力、质量保证能力、市场开拓能力,使奇声能保持在同行业的领先地位,并紧跟世界数码科技新潮流,与索尼、飞利浦、松下、东芝、C-CUBE、ESS等多家享誉全球的一流企业有着密切的技术合作,相互之间充分进行技术交流,使“奇声电子 精益求精”的理念得以彻底贯彻。

不论是国内还是国际影音市场,竞争均会日趋激烈。奇声将以一流的人才、一流的技术、一流的产品、一流的服务去迎接竞争,去满足全球各地消费者的需求。奇声是在激烈的市场竞争中成长起来的,也必将在更加激烈的竞争中发展壮大!

Profile of Qisheng

Qisheng Electronics Industrial Co., Ltd. ("Qisheng") in Dongguan is located at where the Guangzhou-Shenzhen Expressway crosses over the Dongjiang River near the Guangzhou Economic and Technological Development Zone. It is an AV enterprise that integrates scientific research, development, production, marketing and service. Thanks to more than 10 years of growth since its incorporation in 1992, Qisheng now has a workforce of over 2000 and covers an area of hundreds of thousands of square meters, making it one of the largest domestic manufacturers of home theatres.

Backed by a strong power of scientific development and production, Qisheng specializes in the making of Qisheng brand home theatre products of more than 200 models in 9 categories, including VCD, super VCD, DVD, amplifiers, equalizers, tape cassettes, digital tuners, speakers and microphones. These products feature an out-rivaling performance and reliable quality. The company has won over 20 honorary titles, including "Enterprise with Trustworthy Product Quality for Five Years in Succession", "Product Trusted by Consumers", "Recognized Famous Chinese Brand" and the gold prize at the "First Yangcheng Expo of Choice Audio Products". Qisheng is one of the first enterprises authorized by the China Association of Electronic Audio Industry to use the "A" sign. Its products have passed authoritative domestic and foreign certifications, including production license certification, the Great Wall electric engineering safety certification and CS certification. In July of 2001, they passed ISO9001:2000 international quality system certification, putting Qisheng among the few enterprises of the industry that have passed this certification.

Qisheng has consistently regarded the revitalization of national brands as its own mission and takes a lion's share of the domestic AV market with its characteristic high reliability and high cost-effectiveness. With the steady expansion of the enterprise and the arrival of the integration of global economy, Qisheng cannot rest satisfied with what it has achieved within the country and now targets the overseas market with broad prospects. Currently, Qisheng products find favor with the people in Viet Nam and the other parts of Southeast Asia and sell well on the local markets there, enjoying a high fame among consumers. To further widen its influence on the world AV market, Qisheng has filed trademark registration applications in a number of countries and set up a dedicated foreign trade department to open up the overseas market. It is now in an active search of domestic and foreign trade partners and will meet the cooperation of worldwide trade partners and face the selection by consumers with high-tech products, precise production processes and perfect corporate management.

Qisheng sets the "three zeros" (zero stockpile, zero defect, zero complaint) as the criterion for itself. The company has drawn up detailed materials inspection standards to ensure the quality of the raw materials. During production, the principle of "quality first" is given the top priority to prevent a single substandard product from leaving the factory. Qisheng products not only have proven quality, but are also supported by complete sales and after-sale service networks that are spread across the country, which provide quality service for consumers in all places and at all times. It is exactly because of the high-quality products and service that Qisheng has become a widely known market leader and an equivalent for quality products and service in the eyes of the people in merely several years of time.

The cornerstone for the success of Qisheng is to focus on human beings and the underlying reason for the swift expansion of Qisheng is the spotlight that it throws on talents. Over the years, the elite talents of the electronic circles have been constantly attracted to Qisheng, forming the powerful capability of Qisheng in product development, quality assurance and market expansion and making it possible for Qisheng to keep its leading position within the industry and keep abreast with the new trends of world digital technology. Qisheng maintains a close technical cooperation with global first-rate enterprises, e.g. Sony, Philips, Panasonic, Toshiba, C-CUBE and ESS, and carries out full technological exchanges with them to thoroughly implement the concept of "Qisheng electronics in never-ending improvement".

Competition will get more fierce whether on the domestic or on foreign AV market. With first-rate talents, first-rate technology, first-rate products and first-rate service, Qisheng will brace itself up for the competition to meet the needs of consumers in all parts of the world. Qisheng has grown up in fierce market competition and is bound to grow stronger in more fierce competition!

CA6DE1 系列环保节能型柴油机

CA6DE1 series environmental friendly and energy saving diesel engines

主要技术特点

在产品性能上在国内首屈一指，经济性上优势明显，油耗比同类产品低 5% 左右。

排放指标全面满足欧洲 1 号法规，更具备了欧洲 11 号法规的潜力。

动力性上，具备良好的低速特性。

This series includes new generation of energy saving products newly developed by our factory. They conform to the state's emission regulation and nation's policy of fuel tax, and fit for users. These products at present represent the highest technical level of the factory.

Main technical features

Product performance is the best in China. With fuel consumption being around 5% lower than other products of the same kind, it possesses obvious economical efficiency.

Obvious improvement in cost performance ratio

Emission comply with Euro* standards with the potential to reach Euro.

Succeed to the old product's advantageous tradition in load-carrying capacity and own incomparable advantage in comparison with other products of the same kind.

Finite Element Analysis (FEA) calculation has been given to such strength structure and components as cylinder block, cylinder head and connecting rod and so on to ensure the toughness and strength, establishing the base for cutting down exhaust gas emission.

The design of combustion, engine intake and exhaust system, and fuel injection systems broke the original mode and took integration into consideration, which present obvious economical efficiency advantage to the product.

Engine performance possesses good low-speed behavior.

CA6110ZLA3 系列柴油机

CA6110ZLA3 series diesel engines

Based on turbo-charged CA6110Z engine, through the application of turbo-charging with intercooler technology, by decreasing the rated speed, increasing the peak torque, this engine series can meet the requirement of emission regulation and Fuel-Tax policy. Main technical features

Optimize combustion system/air intake and exhaust system.

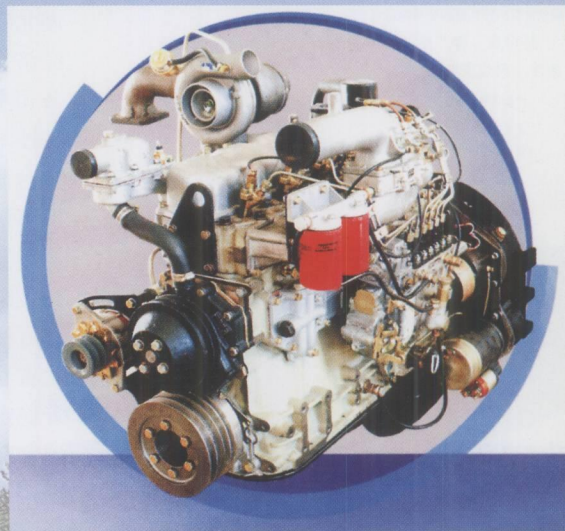

Adopt more reasonable camshaft profile to effectively improve air-charging efficiency and optimize intake and exhaust timing. Advanced fuel injection pump combined with intake system and combustion chamber improves the engine performance, lowers the engine

Exhaust emission, reduces engine fuel consumption.

Adopt a lot of new processes, new technologies and parts with good strength and high precise, making the diesel engines durable.

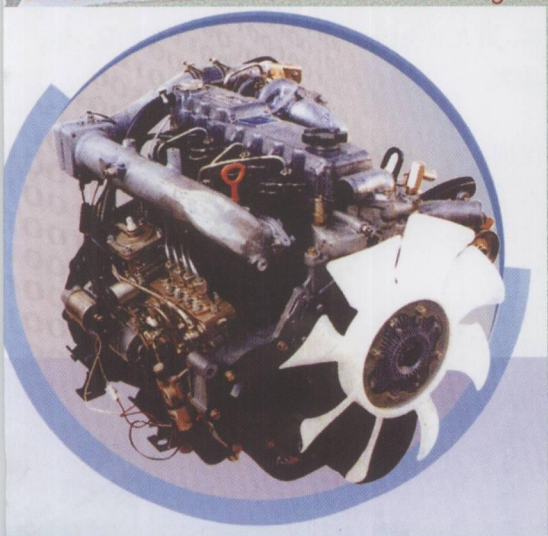

Adopt turbo charger with exhaust bypass valve to increase low-speed torque, increasing capacity for carrying load

Based on world leading technology, the fuel injector with new type combustion chamber can reduce the exhaust emission of CO, HC and particulate enormously. Give the world a clearing blue sky is always our aim.

CA498/CA498Z/CA498ZL 系列柴油机

CA498 CA498Z CA498ZL series diesel engines

CA498 series diesel engines: In order to satisfy different requirements of customers, the diesel engine is equipped with M series of inline fuel injection pump and P type fuel injector imported from Czech. Homemade fuel injection system can be selected to replace the imported one, reducing the cost of the whole engine. Meanwhile, the main performance is basically similar to those of CA4D32 type, providing better cost-performance ratio for customers.

CA498Z series diesel engines: CA498Z type diesel engine possesses excellent reliability and economical efficiency and good performance, with exhaust emission reaching Euro I Standard.

The main components type: Japan-Bosch VE fuel injection pump and P type fuel injector (which can be replaced by Czech M series fuel injection pump and P type fuel injector), Shanghai Honeywell TB28 type turbo charger.

CA498ZL series diesel engines: This type is equipped with such accessories as air compressor, vacuum servo-assist pump and air condenser to satisfy the requirements of security and comfort.

Meanwhile, Low fuel consumption, low exhaust emission and high rated speed make CA498ZL type diesel engines the best selection in light duty vehicle (3 tons) market.
