Do you like eating apples?

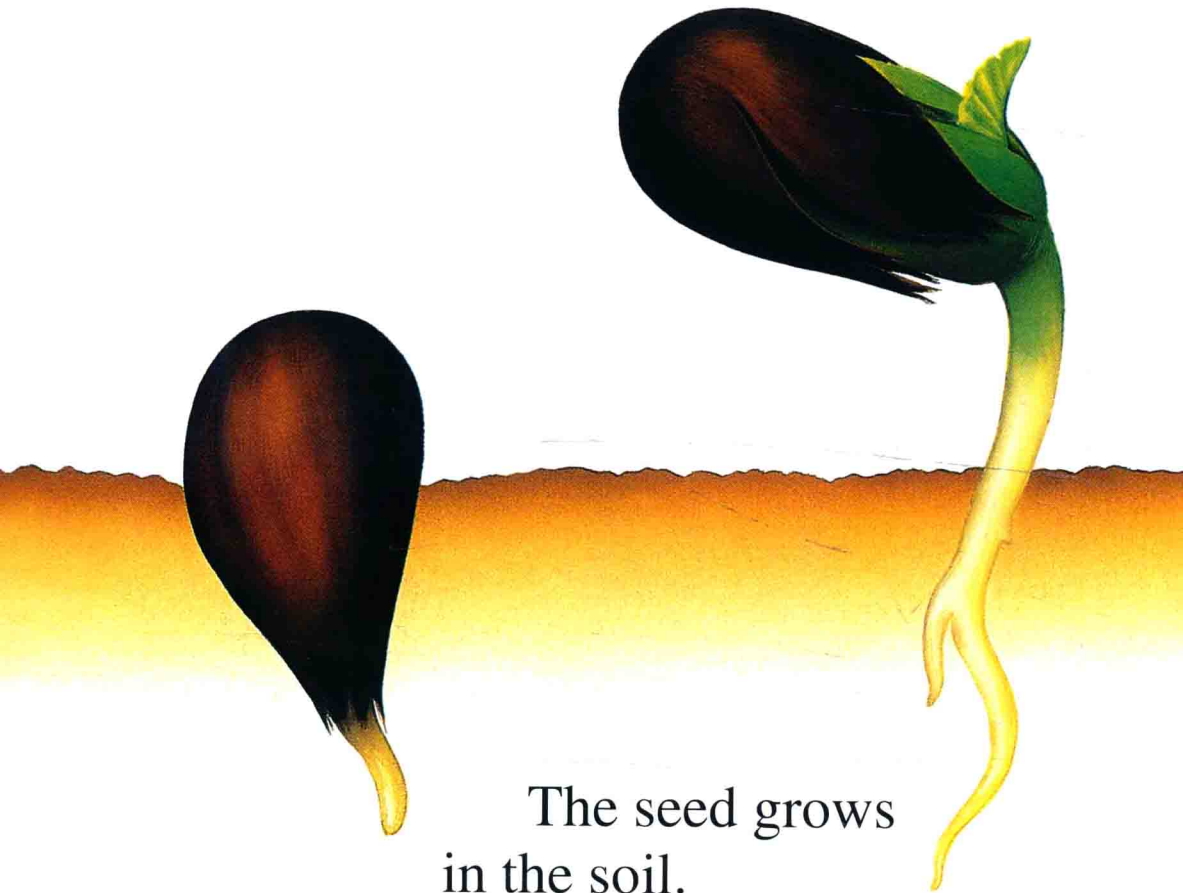

此为试读, 需要完整PDF请访问: www.ertongbook.com

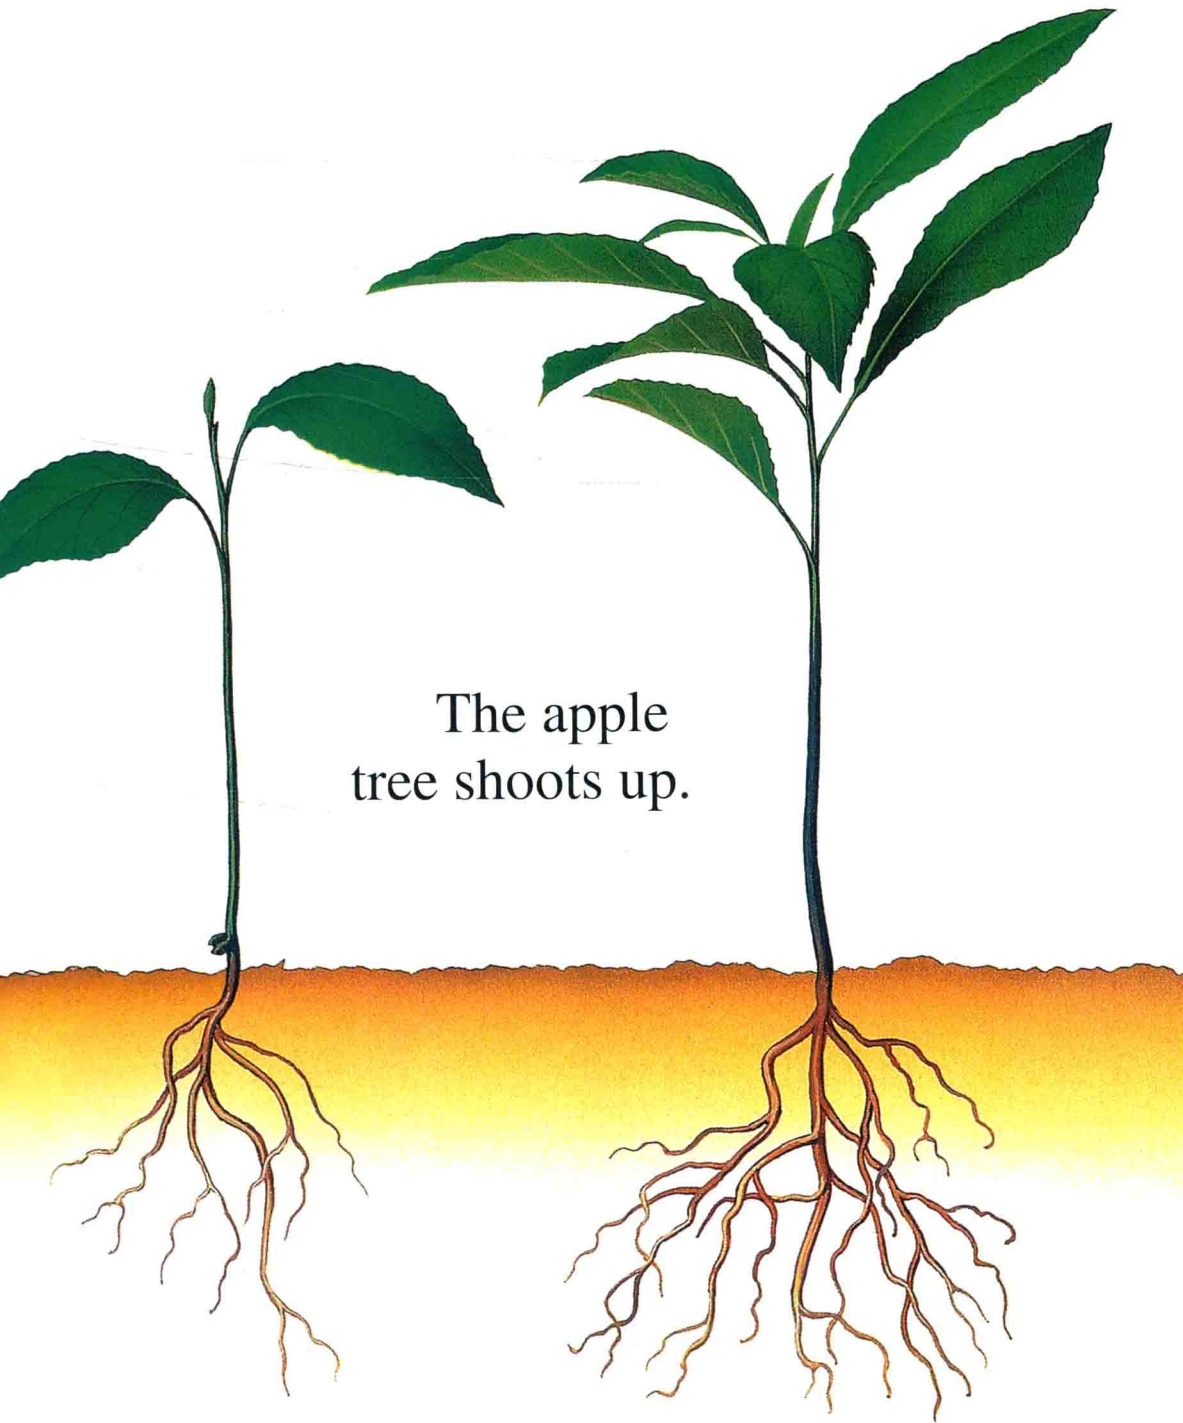

There are lots of different kinds of apples.
Which kind do you like best?

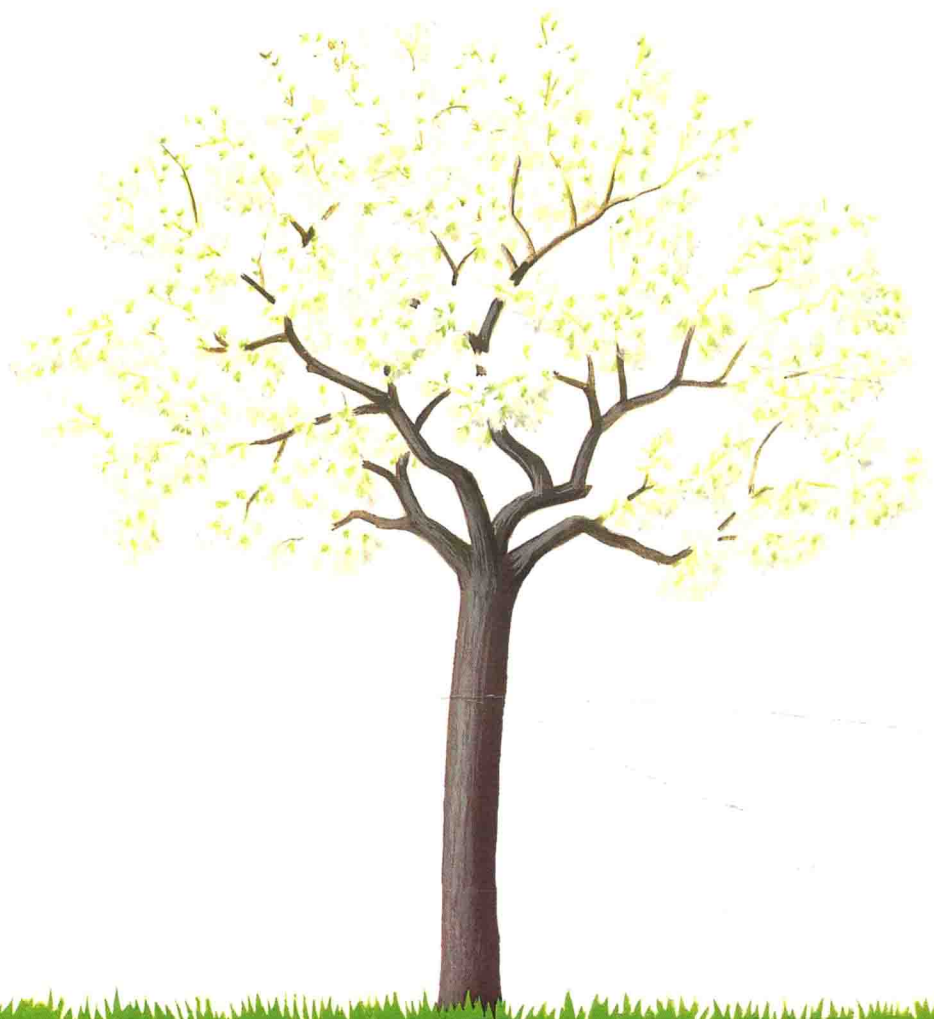

A pip is the seed
of the apple tree.

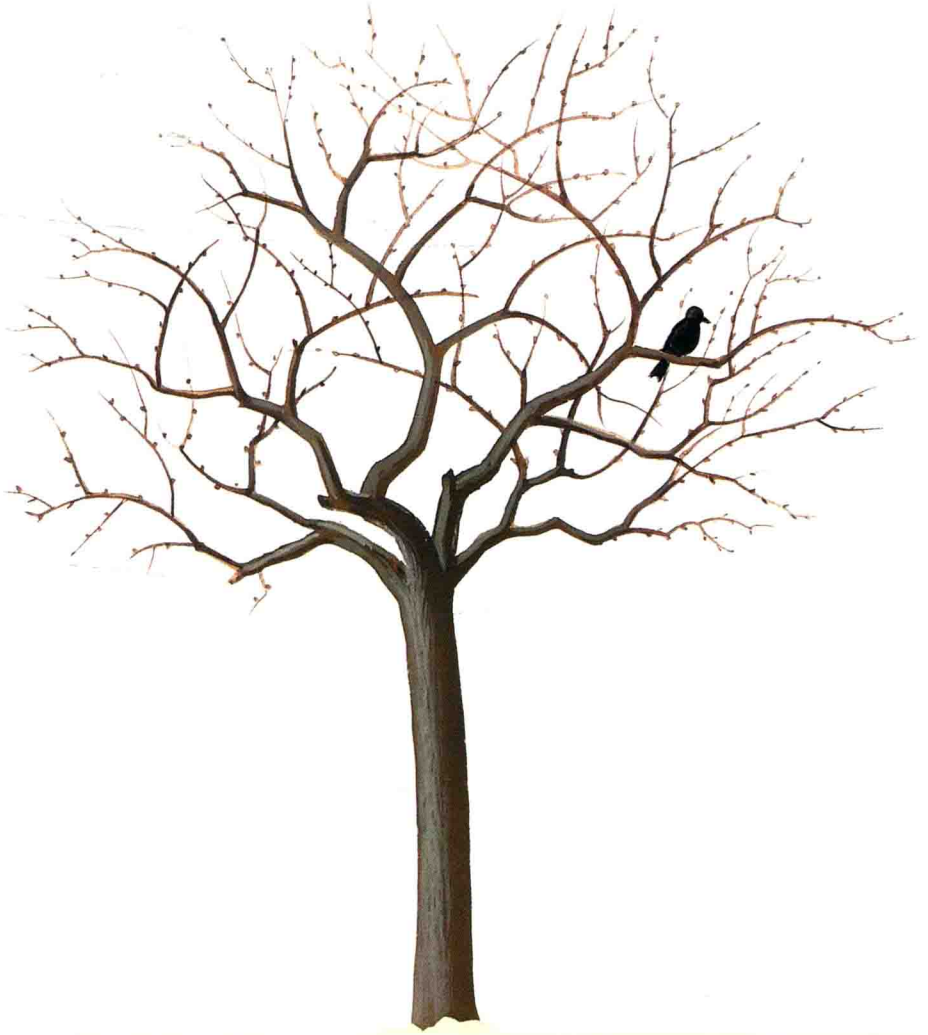

The seed grows
in the soil.

The apple
tree shoots up.

In spring, the apple tree is covered in blossom.
In summer, the blossom turns into fruit.

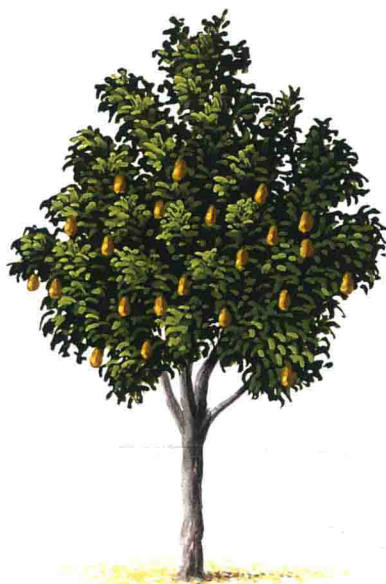

In autumn, the apples are ready for picking.
In winter, the apple tree loses all its leaves.
