省会长春，曾是伪满州国“首都”，末代皇帝居住的伪皇宫供游人观赏，著名的长春电影制片厂、新建的电影城、松花湖、长白山自然风光都是游人探奇揽胜的好地方。吉林树挂（雾凇），与桂林山水、长江三峡、云南石林并称为中国四大奇观。

吉林省物产丰富，交通发达、通讯便捷；吉林人民欢迎中外朋友旅游观光，投资、洽谈、交流合作。

Jilin Province is located in the heart of Northeast China. Its total area of 187,400 square kilometres makes it the fourteenth in size in China. The western part is a vast plain while the mountains rise from the eastern part. It has monsoon climate in temperate zone, averaging a temperature of from 2 to 5℃.

Jilin Province is the leading producer of grains of China. It is the main producer of soybean, sugar and oil crops and has extensive livestock production. Jilin ranks the sixth in China for forest and its wood output is second highest in the nation. The province is rich in abundant plant resources with more than 2300 kinds of plants, among which are more than 900 species yielding valuable ingredients for traditional Chinese medicine and edible plants, such as ginseng, glossy ganoderma, yunzhi, gastrodia elatn. Among the 1100 varieties of animals are about 100 kind of valuable species including the northeast tiger, sika deer, leopard and black bear. Total water resource are about 41.8 billion cubic meters. The western prairie covers more than 1.5 million hectares and is the center of the grazing animal pasture land of China. This area is a leading producer of beef and fine wool. There are more than 70 kinds of mineral resources among which are deposits of shale, silicic line and lapillus largest in China, nickel, dolomite and glass sand ranking third in China and petroleum ranked seventh in China.

Jilin Province's capital is Changchun. There are 7 district—grade cities, 1 district, 1 minority nationality autonomous region, 15 county—grade cities and 26 counties. Provincial population is 24,401,712 and includes 43 minority nationalities. The total social output is 95.749 billion yuan; the total industrial output is 61.431 billion yuan; the total agricultural output is 18.838 billion yuan and the turn over from the retail trade is 25.535 billion yuan.

A large number of key industrial enterprises make their home in Jilin Province. These include automobile works, machinery and others. This province has developed a great number of chemistry, optics and fine mechanics, physics, geography, and scientific research institutes and is a higher education base for many fields.

Changchun, the capital of Jilin Province used to be the capital of the Puppet State of Manchu. The palace of the last Emperor Puyi, the well-known Changchun Film Studio, the newly-built film palace, the Songhua Lake, and the natural scenery of Changbai Mountain are all good tourist attractions. Jilin crystal branches snow-covered willows ranks with Guilin's beautiful landscape, the three gorges of the Changjiang River and Yunnan's stone forest as one of the four marvelous spectacles in China.

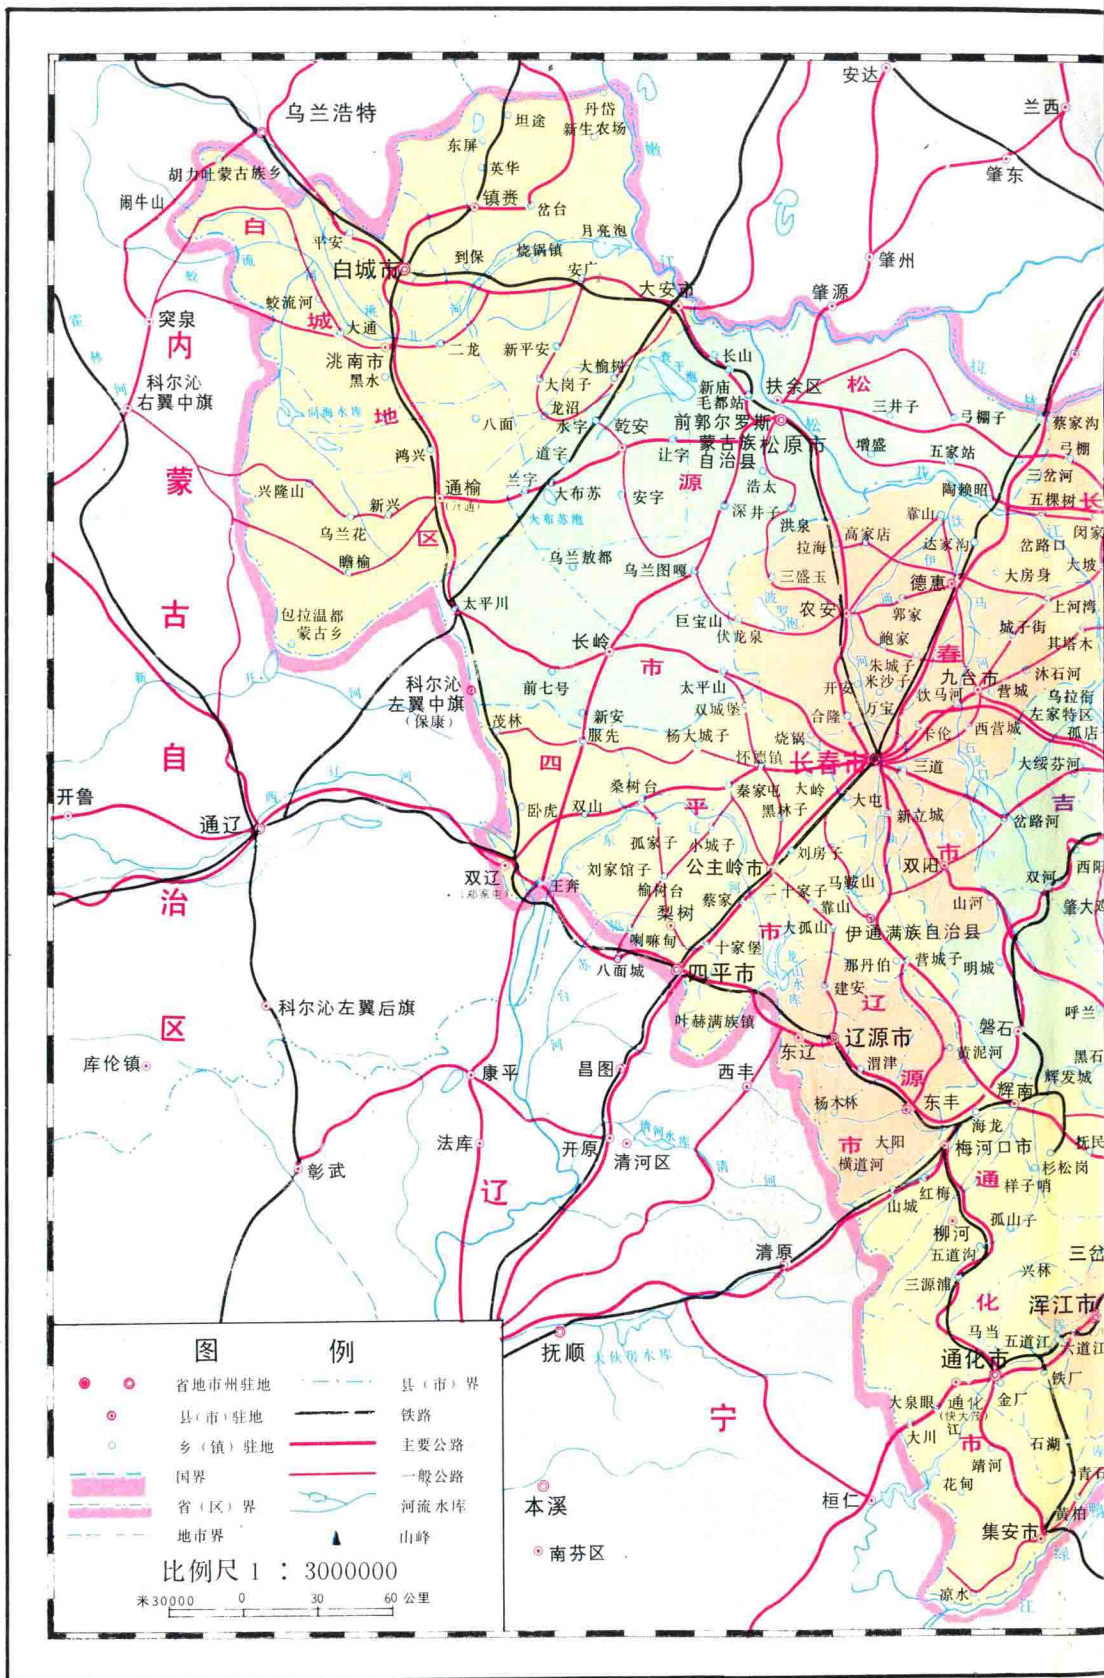

Jilin Province is rich in natural resources and the communication is convenient. The people of this province extend their sincere welcome to friends of various places for their investment, trade negotiations and visit.
