## 主编简介

**周文夫** 男，1954年6月生，河北省滦南县人，1973年2月参加工作，1975年6月入党，1982年初毕业于河北大学经济系政治经济学专业，经济学教授。现任河北省社会科学院党组书记、院长，中共河北省委讲师团主任、省邓研中心主任，河北省社会科学界联合会第一副主席。第七届、第八届中共河北省委委员，政协河北省第十一届委员会常务委员。河北省李大钊研究会会长。

30多年来，周文夫在理论教学研究和地方领导工作中，对经济和党建理论与实践问题进行了深入研究与探索。他主持的“河北沿海经济社会发展强省建设路径选择”、“构建河北现代产业体系研究”、“河北省环首都绿色经济圈建设问题研究”、“河北沿海地区经济发展问题研究”、“河北加强和创新社会管理问题研究”等重大课题，受到省委、省政府主要领导和分管领导的肯定和采纳，为领导决策和全省经济社会发展提供了重要的理论支撑和智力支持。他紧密结合自己地方工作实际，选定邯郸农村基层“一制三化”工作运行机制、推进行政权力公开透明运行等专题，对其进行了较为深入的研究，在指导实际工作中发挥了重要作用，受到党中央和省委、省政府领导同志的肯定。中共中央组织部还专门发文向全国推广邯郸农村“一制三化”经验，邯郸推进行政权力公开透明运行工作（省试点）在全国引起积极反响。

迄今，在《人民日报》、《光明日报》、《求是》杂志、《中国改革日报》、《中国监察》、《新华文摘》、《瞭望》及《河北日报》、《河北学刊》等国家或省级学术理论刊物上发表论文200余篇，独著或主编、参编论著20余本，公开发表论文和出版专著、教程累计300余万字。主要代表作：专著，《基础·运行·调控——社会主义市场经济研究》（1997年）；论文，《论失业及适度失业在我国社会主义商品经济发展中的意义》（1988年）、《战略·速度·举措——关于加快我国经济发展若干问题的理论思考》（1997年）、《西柏坡

时期党的群众路线的经验与启示》（2013年）。1988年12月获全国纪念党的十一届三中全会十周年理论讨论会入选论文奖，应邀赴京出席全国理论讨论会；获得河北省社会科学研究优秀成果一、二、三等奖等多项奖励。1991年被评为全国优秀教师，应邀赴京参加了全国教师节庆祝表彰活动；1992年被省政府批准为河北省有突出贡献的中青年专家；1997年度享受国务院颁发政府特殊津贴。

## 摘 要

《河北经济社会发展报告（2014）》是河北省社会科学院深入贯彻落实党的十八大精神，紧紧围绕河北省委八届五次全会要求，从宏观形势分析入手，就河北经济社会发展的热点和难点问题进行研究的年度报告。全书主要包括总报告、经济篇、社会篇、案例篇四个部分，针对社会各界高度关注的经济运行、产业转型、农村改革、环境治理、社会发展等问题展开了系统研究。在深入分析 2013 年河北经济社会运行态势的基础上，就 2014 年的发展形势进行了预测，提出了加快河北科学发展、绿色发展、和谐发展的相关建议。全书注重研究的原创性、实用性和可操作性，力求提出的发展思路、对策建议能够为各级党委政府提供决策参考，为社会各界提供有价值的信息咨询。

2013 年，世界总体经济形势低迷，欧债危机继续蔓延，国内经济增速放缓，给河北经济社会发展带来诸多不确定性因素。面对国内外复杂的经济形势，以及传统发展方式造成的资源环境压力，河北省委省政府围绕解放思想、改革开放、创新驱动、科学发展，提出了加快打造沿海地区率先发展的增长极、大力培育环京津地区新的发展增长极、做大做强县域经济、推动工业转型升级和环境治理的“四大攻坚战”，全省经济运行基本平稳，结构转型逐步加快，各项社会事业发展较快。

本书总报告是对河北省经济和社会形势进行的整体性分析和预测。总体上看，随着城乡基础设施和公共服务一体化进程的加快推进，河北省社会形势呈现良好态势，却迎来了“第三次经济起伏”。总报告围绕如何加速工业转型升级、加快沿海地区发展、促进县域经济腾飞、提高城镇化质量，以及处理好经济发展与生态环境关系等突出难题进行了深入分析，提出了打造“河北经济升级版”的思路与对策。

经济篇，主要针对河北省文化产业发展、工业化推进模式等重点问题展开

系统性研究，指出未来河北产业结构调整方向和工业化发展思路。同时，对城乡一体化发展下的农村面貌改造升级、现代农业发展模式及路径给予了重点关注。需要重点指出的是，在河北的经济建设中，应充分发挥紧邻京津的区位优势，主动对接京津，使之成为疏解京津城市功能和人口负担的“减压阀”和大都市连绵带的繁荣区，实现跨越发展。

社会篇，围绕河北省委八届五次全会提出的“四大攻坚战”，深入分析了河北法制建设、行政制度改革、专业人才培养、生态环境治理等社会热点问题，相关理论和建议为营造和谐稳定的良好氛围提供了有力支撑。同时，还关注了全国首创的“善行河北”道德主题实践活动及其社会效应，以及彩民过度购彩的消费行为特征及影响，提出了相应的解决措施。此外，还特别关注了河北重度雾霾天气的环境污染问题，提出了以突破重点和热点环境问题为抓手，辐射带动生态环境质量全面改善的应对之策。

案例篇，重点对传统产业改造升级、文化产业培育发展、区域大气污染联防联控治理进行了案例剖析。在产业转型中，充分挖掘河北省传统武术文化资源，培育壮大新兴文化产业并形成聚集之势，是加快产业结构转型升级的有效路径之一。面对京津冀地区日益严峻的大气污染形势，建立京津冀及周边地区大气污染联防联控机制，是消除“雾霾”、“PM 2.5”等有害物质，净化空气，改善生态环境的最佳措施。需要指出的是，“案例篇”是《河北省经济社会发展报告》的特色之一，是反映舆情和民生问题的“理论”和“实践”的有机结合。

## Abstract

*Hebei Economic and Social Development Report (2014)* is a yearly report compiled by Hebei Academy of Social Sciences by carrying out the CPC 18th National Congress spirit, closely following requirements of the Fifth Plenary Session of the CPC Eighth Hebei Provincial Committee, starting from the macro-situation analysis, and proceeding to research hot and difficult issues in Hebei's economic and social development. This book has four parts: General Report, Economic Section, Social Section, and Case Section, and carries out systematic research on the economic operation, industry transformation, rural reform, environmental management, social development, and the like – all of which have received much public attention. Based on an in-depth analysis of Hebei's economic and social operation in 2013, it forecasts the development trends in 2014, and puts forward proposals for accelerating Hebei's scientific development, green development, and harmonious development. This book lays stress on the originality, practicability, and operability of the research, in order for its development ideas, solutions, and proposals to be able to serve as a reference for decision-making at all levels of CPC committees and governments, and other organizations concerned.

In 2013, the global economy was in a state of lethargy, the European debt crisis continued to spread, and China's domestic economic growth slowed down, all of which brought many uncertainties to Hebei's economic and social development. Under the background of complex domestic and international economic situation, and resources and environment pressures caused by the traditional model of development, the CPC Hebei Provincial Committee and Hebei Provincial Government, centering around emancipating the mind, reform and opening-up, innovation-driven and scientific development, has launched the "Four Campaigns" for accelerating the building of growth poles taking the lead in the development of the coastal areas, vigorously fostering new growth poles around Beijing and Tianjin, building large and strong intra-county economies and counties, pushing forward

industrial transformation and upgrading, and environmental rectification, and as a result, the province-wide economic operation has been steady on the whole, the structural transformation has been accelerating gradually, and the overall social development has been rapid.

The General Report is an overall analysis and forecast of economic and social situation of Hebei province. With the accelerated advancement of integration of urban and rural infrastructure and public services, the overall economic and social development of Hebei Province is gaining momentum, but also running up against the “third wave of turbulence”. General Report conducts an in-depth analysis of such outstanding issues as how to accelerate the industrial transformation and upgrading and the development of coastal areas, promote county economy take-off, improve the quality of urbanization, and deal with relationships between economic development and ecological environment, and then puts forward approaches and solutions to building “An Upgraded Hebei Economy”.

The Economic Section focuses on systematic research on such key issues as the transformation and upgrading of iron and steel industry of Hebei province, cultural industry development, and industrialization models, and identifies the future direction of Hebei’s industrial structural adjustment and approaches to the industrialization. Meanwhile, this book pays more attention to the transformation and upgrading of rural appearances, models of and approaches to modern agriculture development in the integrated urban and rural development. Of them, an intense focus should be on making full use of the geographical location advantage of being adjacent to Beijing and Tianjin in Hebei’s economic development, taking the initiative to match itself to the development needs of Beijing and Tianjin, becoming a “decompression valve” for urban functions and population burdens of Beijing and Tianjin, and a part of a flourishing greater metropolitan area, in an effort to achieve development by leaps and bounds.

The Social Section, centering around the “Four Campaigns” put forward at the Fifth Plenary Session of the Eighth Hebei CPC Provincial Committee, conducts an in-depth analysis of such hot social issues as Hebei’s legal system construction, administrative system reform, professional talents training, and environmental management, and puts forward relevant theories and proposals that provide strong support for creating a harmonious and steady atmosphere. Meanwhile, this book pays

attention to the “Promoting Ethics in Hebei” campaign, the first such campaign in the nation, and its social effects, and the features and influence of excessive purchase of lotteries, and puts forward corresponding solutions. In addition, it also pays special attention to the environmental pollution from smog in Hebei, and puts forward solutions for breaking through key and hot environmental problems to promote overall improvement of environmental quality.

The Case Section focuses on a case analysis of the transformation and upgrading of traditional industries, the cultivation and development of cultural industries, and integrated prevention and management of regional air pollution. In industrial transformation, making full use of the traditional martial arts culture resources of Hebei Province to cultivate and develop emerging cultural industries and form industrial agglomeration is one of the effective approaches to accelerating industrial transformation and upgrading. Faced with increasingly severe air pollution in the Beijing-Tianjin-Hebei region, establishing an integrated prevention and control mechanism for air pollution in the Beijing-Tianjin-Hebei region and peripheral regions is the optimal approach to eliminating such harmful substances as smog and  $PM_{2.5}$ , purifying the air, and improving the ecological environment. Case Section is one of the distinguishing features of the *Hebei Economic and Social Development Report*, and a good combination of “theories” and “practices” that reflects public sentiments and people’s livelihood issues.
