Post Master is submitted, and ordered to be printed

their shop. It is further agreed that the New

the Pecker of Markets Cameron is to make the  
necessary arrangements about the staff required and  
the collection of the fee for the slaughtering of animals  
brought to it.

Water Supply. Letter from the Health Officer is read  
directing attention to the imperfect filtration of the  
water recently supplied to the public, and recommending  
that it should be brought to the notice of the  
Water Works Co. Decided to send the Company a

He gets \$1,000 <sup>per annum</sup> for looking after the Cemetery, and charges extra for supplying Shrubs &c. The disease seems to be a fever of some kind, and is apparently contagious. The sick cattle have been removed and are under the care of Dr Whitney, the others are all in good health; only one cow has died as yet.

- Size Chancery Road Widening Letter from Mr Grattan is read accepting on behalf of the Committee offer of £500, for a strip of Cadastral Lot 177, measuring 10.0.6.0.

- Risaralda - Public Street. Referring to the correspondence with Messrs. Jardine Matheson & Co, & Mr. T. M. Dowdall about the removal of the alleyway between Cadastral Lots 294 & 298 in the Paking room, the Committee mentions that the Peacock informed Mr. Risaralda that he thinks the alleyway was originally a part of Lot 294, but that it has been used by the public as a road for a great number of years, and cannot now be closed. Water Supply Letter from the Water Works Co is read stating that the quick appearance of the water to which the Health Officer has directed the attention of the Council is caused by the presence of very minute particles of iron which although removable by an ordinary domestic filter, are not so by the methods of filtration adopted by water works companies.
