# 天津医科大学总医院

THE GENERAL HOSPITAL OF TIANJIN MEDICAL UNIVERSITY

## 医院概况及临床特点 Brief Introduction and Clinical Characteristics

天津医科大学总医院始建于1946年,原为天津中央医院,1956年更名为天津医学院附属医院,1994年改为现名;是天津市最大的集医疗、教学、科研、预防为一体的综合性医院,1993年在天津市首家通过三级甲等医院评审。该院设有天津市神经病学研究所、天津市放射诊疗研究所、天津市内分泌研究所临床部、天津性传播疾病医学研究所。

医院建筑面积7.67万平方米,设病床1000张,年门诊量80万人次,年住院病人1.2万人次。现有职工2363人,其中副高级以上技术职称人员327人、工程院院士1人、博士生导师14人、硕士生导师121人、政府授衔专家12人。医院设有33个临床科室、12个医技科室,该院拥有最新引进的核磁共振仪、X一刀、全身CT、ECT、DSA、医用直线加速器、彩色多普勒心脏诊断仪、放疗计划治疗系统等先进医疗设备。

医院有中西医结合临床(外科)、内科学(内分泌与新陈代谢病)、神经病学、影像医学、普通外科、核医学、眼科等7个重点学科。在甲状腺疾病、糖尿病、代谢性骨病的早期诊断和防治研究、射频消融术、疑难及恶性血液病、心脏直视手术、各类门体静脉血管分流术、人工及自体血管移植术、肝脏手术、以小肠移植为代表的器官移植、中西医结合治疗急腹症的研究、妇科肿瘤的系统治疗、脑肿瘤显微外科治疗、准分子激光治疗近视眼、药物和人工晶体植入治疗白内障、侧颅底显微手术、耳神经手术、中枢神经系统的影像学诊断、介入性放射治疗、恶性肿瘤的放射治疗等均在国内外居领先水平。

The General Hospital of Tianjin Medical University was founded in 1946, originally it was called Tianjin Central Hospital. In 1956 it was renamed "the Affiliated Hospital of Tianjin Medical College". Since 1994 the present name has been used for this hospital. It is the largest general hospital in Tianjin, which integrates medical treatment with teaching, scientific research, and medical prevention. In 1993 it was the first which passed test of the hospital of Class A in Grade 3 in Tianjin. Tianjin Institute of Neurology, Tianjin Institute Radiology, Tianjin Institute of Endocrinology, Tianjin Institute of Venereology are also affiliated to this hospital.

The hospital covers an area of 76,700m<sup>2</sup>. It has 1,000 beds. The annual attendance of out-patients is about 800,000 persons/time and the annual in-patients amount to 12,000 persons/time. The hospital has a staff of 2,363 people, including 327 people with senior technical or professional titles, 1 academician, 14

1. 院长王鹏志教授

President of the hospital, Prof. Wang Pengzhi

tutors for Doctor-degree students, 121 tutors for Master's degree students, 12 specialists appointed by the state government. The hospital has 33 clinical departments and offices and 12 technical departments and offices. The hospital has introduced a lot of advanced medical equipment such as nuclear magnetic resonance apparatus, X-ray knife, whole-body CT, ECT, DSA, linear accelerator, Colour Doppler diagnostic apparatus, radiological-system apparatuses.

There are 7 important departments in this hospital, namely the clinical department of combination of traditional Chinese medicine and western medicine (surgery), department of internal medicine (for endocrinal and metabolic diseases), department of neurology, department for imaging medicine, the department of general surgery, department of nuclear medicine, ophthalmological department. The hospital has taken the leading positions in China for the treatments and research in the respects of thyroid disease, diabetes, metabolic osteopathy, etc. The techniques of the following operations have reached the advanced levels domestically or internationally, namely radiogrequency ablation, operations for malignant leukemia, cardiac operation under direct vision, varieties of portacaval shunts, artificial or auto-vascular grafting, hepatic operation, organ transplantation, the therapy by combination of traditional Chinese medicine and western medicine for treatment of acute abdomen, treatment of tumors in the respect of gynecology and obstetrics, treatment of cerebral vascular disease, microscopicsurgery for cerebral tumors, quasi-molecular lazer therapy for treatment of myopia, medical and artificial lens implantation for treatment of cataract, lateral basicranial microscopic operation, otoneurosurgery, the imaging diagnosis of the disease in the central nervous system, interventional therapy, the radiotherapy for treatment of malignant tumors.

## 教学、科研与发展 Research, Teaching, Development

该院是天津医科大学第一临床医学院，有1个博士后流动站、7个博士学位授权点、23个硕士学位授权点，已培养博士生99名、硕士生612名。医院是卫生部指定的高级医师进修和培训基地，受卫生部委托举办了内分泌学、神经内、外科学、放射诊断学、病理学的全国高级医师进修班16期，共接收来进修医师近6000人次。

近10年来，医院承担科研课题546项，其中有50项通过成果鉴定，38项获奖，其中获国家科技进步二等奖1项，获国家科技进步三等奖1项，获国家发明三等奖1项；在国际级医学刊物上发表论文85篇、在国家级刊物上发表938篇、在省市级刊物上发表1164篇，主编医学专著58部，参与编写126部。

医院积极开展学术交流和技术合作，已接待了美国、法国、瑞士、新加坡、日本等20多个国家和地区的专家、教授1000人次来院讲学、参观、考察、访问，医院还派出300多人次出国留学、攻读学位、研修、考察、讲学等。

目前，全院职工正全力以赴争创“211工程”、全国“百佳”医院和三级特等医院，以使总医院在天津市医疗卫生系统中起到带头和示范作用。

The hospital is the first clinical hospital of Tianjin Medical University. It has one station to confer Doctor-degree on students, 7 stations for conferring Doctor-degree on students, 23 stations for conferring Master-degree on students. The hospital has trained 99 Doctor-degree students, and 612 Master-degree students. The hospital has been appointed by the Ministry of Public Health to be a designated base for training senior medical personnel. The hospital entrusted by the Ministry of Public Health has organized many training classes for 16 times and it has admitted medical personnel of 6,000 persons/time.

In recent ten years, the hospital has undertaken 546 programs of research, including 50 programs which have passed test by

The out-patient building is being built

3. 医院鸟瞰

The view of the hospital

the State, it has won 38 prizes, including 1 state-level prize in the second class, 1 third-class prize for achievement of science and technology 1 state-level prize for invention. About 85 articles have been published in foreign journals, and 938 articles have been published in national medical journals. and 1164 articles have been published in the provincial-level journals. 58 monographs by the hospital have been published. and some of the medical personnel in this hospital have been involved in compiling 126 monographs.

The hospital has developed the extensive academic exchanges and co-operations with foreign over 20 countries and regions such as the United States, France, Switzerland, Singapore, Japan. About 1,000 foreign scholars and specialists have come to the hospital for further studies or giving lectures, exploration, and visits. The hospital has sent over 300 medical personnel abroad for further studies, giving lectures in foreign countries or explorations .

At present whole staff of the hospital are trying to finish the "engineering No.211" and striving to pass the approval of "one hundred excellent hospitals" and Class A Specific hospital so that it can set a good examples in Tianjin health system.

# 天津医科大学第二医院

THE SECOND HOSPITAL OF TIANJIN MEDICAL UNIVERSITY

## 医院概况及临床特点 Brief Introduction and Clinical Characteristics

天津医科大学第二医院是集医疗、教学、科研为一体的大型综合医院。其旧址是原河北省医院，1973年成立天津医学院第二附属医院，1994年更为现名，1993年首批通过的三级甲等医院评审。

医院占地8.6万平方米，建筑面积4.2万平方米；设病床665张，日门诊量1500人次，年出院人数约8000人次；现有职工1661人，其中博士生导师9名，高级职称153人，中级职称553人。医院有临床医技科室38个，教研室13个，泌尿外科学和心脏病学是天津市重点学科和重点发展学科，医院设有专门的科研机构，即：泌尿外科研究所、心脏病学研究所、感染性疾病研究室、中西医结合研究室，另还设有血液净化、体外震波碎石、偏瘫康复、伽玛刀等四个治疗中心以及卫生部心血管和感染两个临床药理基地。医院共有设备3322台，总价值达亿元，其中包括高场强核磁共振成像机、快速成像螺旋CT、双探头ECT、伽玛刀、彩色多普勒、体外震波碎石机、全自动生化分析仪等先进治疗设备。

该院已完成多例心脏瓣膜置换术、消融术，并独立成功完成十余例心脏冠状动脉搭桥手术；泌尿外科已成功进行10余例肾移植术；眼科进行了角膜移植术和近视手术，在眼眶肿物的手术治疗上已达到国内先进水平；新生儿科引进和发展国外先进技术，对早产儿和危重婴儿的治疗上也独具特色，抢救和治愈了多例病危患儿。

The Second Hospital of Tianjin Medical University is a large general hospital which integrates medical treatment with teaching, and research. It was originally named "Hospital of Hebei Province". In 1973 it became The Second Affiliated Hospital of Tianjin Medical College. Since 1994 the present name has been used for this hospital. In 1993 it was appraised as "the hospital of Class A in Grade 3".

The hospital covers an area of 86,000m<sup>2</sup> with the building area of 42,000m<sup>2</sup>. It has 665 beds. the daily attendance of outpatients is about 1,500 persons/time. The annual number of the patients discharging the hospital is about 8,000 persons/time. The hospital has a staff of 1,661 people, including 9 tutors for Doctor-degree students, 153 people with senior professional or technical titles, 553 people with middle-rank professional or technical titles. The hospital has 38 medical and technical departments and offices, 13 research offices. The urological surgery and cardiac science are two major subjects, and developing

1. 院长王林教授

President of the hospital, Professor Wang Lin

subjects, and the hospital has set up the specific research organizations such as "the Institute of Urology, & Urlogical Surgery", "the Institute for Cardiac Disease", "the Institute for Infectious Disease", "the Institute for the Research of Combination of Traditional Chinese medicine and western medicine". Besides, there are four centers for treatments of diseases, namely "the center for blood purification", "the center for extracorporeal lithotripsy", "the center for treatment of hemiplegia", "the center for treatment disease with gamma-ray cutting therapy", as well as two pathological bases for vascular diseases and infection diseases under the Ministry of Public Health. The hospital has been equipped with 3,322 sets medical equipment, worthy of over 100,000,000 yuan(RMB). The medical equipment include NMR imaging machine, fast-imaging-screw CT, double-probe ECT, gamma-ray cutting apparatus, colour Doppler diagnostic apparatus, extracorporeal lithotric machine, automatic biochemical analyzer.

The hospital has finished complicated and difficult operations in many cases such as the replacement of cardiac valve, the radiogrequency ablation. The hospital is capable of performing cardiac coronary bypass successfully in over 10 cases. The department of urological surgery has succeeded in performing kidney transplantation in over 10 cases. The ophthalmologic department is capable of performing corneal transplantation and operation for myopia and the technique of the operation for eye-orbital tumor has reached advanced level domestically. The department for neonate has introduced advanced techniques from abroad and has developed the technique and this department has its own characteristics in treatment of premature infants and high-risk infants, thus saving and curing severe infants in many cases.

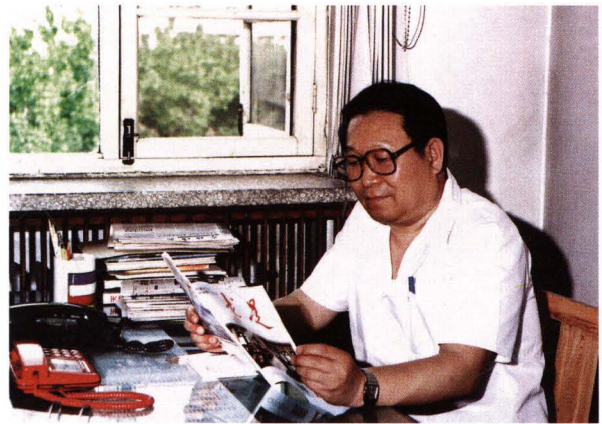

教学、科研与管理 Research, Teaching, Management

医院是天津医科大学临床医学院,担负临床教学任务,该院还承担卫生部委托举办的全国泌尿外科医师进修班 14 期、心血管内科医师进修班 17 期。该院重视医学教育工作,教学科研课题“关于临床教学管理系统工程的研究”、“关于临床医学考试题库的计算机管理的研究”等已通过鉴定。全院设硕士点 14 个,有泌尿外科、心脏内科、神经内科和眼科等 4 个博士点。

近 5 年,医院承担各级科研课题 246 项,其中获国家科研奖 2 项,获市级科研奖 13,开展医药卫生新技术 38 项。全院每年发表学术论文都超百篇,“八五”以来共发表学术论文 607 篇,其中国外期刊 9 篇、国家级核心期刊(中华系列) 112 篇,出版专著 27 部。有 58 人参加 43 次国际学术会议,宣读学术论文 52 篇。由该院主持的全国学术会议 9 次。医院积极开展国际间学术交流,与法国南锡大学医学院在心脏外科方面的技术交流已达成立项协议。
