# 序

为纪念中条山有色金属公司成立四十周年,回顾四十年矿山几代创业者、奋斗者、建设者的丰功伟绩,记载四十年矿山艰苦创业、振兴发展、深化改革的辉煌历程,公司决定编纂一部《中条山有色金属公司志》。经过撰修者们历时近三年的辛勤劳作和各方面的关心、支持、配合,今日《中条山有色金属公司志》终于问世了。

在社会主义建设刚刚起步的晨曦中,中条山这片沉睡万古的荒原,迎来了新中国铜工业的第一代骄子,建起了华北地区唯一重要的铜工业基地一中条山有色金属公司,使这片古老的热土熠熠闪光,显露出新生和希望。日月穿梭,桃符更新,中条山麓炮声隆隆,车水马龙。一代代中条有色儿女,战斗在地层深处,横竖井巷编织开,不尽矿源滚滚来,用智慧和血汗铸就了一座座不朽的丰碑。

四十年来,中条山有色金属公司共生产铜精矿 53 万吨,粗铜 36.3 万吨,电解铜 5.8 万吨,铜线材 6517 吨,硫酸 59.9 万吨,水泥 103 万吨,钴精矿 1200 余吨以及相当数量的金、银等产品,为社会主义建设做出了应有的贡献,为有色金属工业的发展增添了光彩!

历史的昨天风雨征尘硕果累累,公司的明天前程似锦。愿公司广大职工向着长远规划的宏伟蓝图,发扬"献身中条做主人,立足本职创效益"的企业精神,努力建树公司二次创业新的里程碑。

**赵** 波 2000年4月

### **PREFACE**

To commemorate the 40th anniversary of the founding of Zhongtiaoshan Non – Ferrous Metals Company, to recall the great meritorious contributions to our company by the founders, pioneers and builders of several generations during those past 40 years, and to record the glorious course of the pioneering work under arduous conditions, the vigorous development and the intensive reform, the top management of our company has decided to compile "the Chronicles of Zhongtiaoshan Non – Ferrous Metals Company", and now it has come out after almost three years painstaking work by its compilers and editors with the assistance, support and cooperation from different quarters.

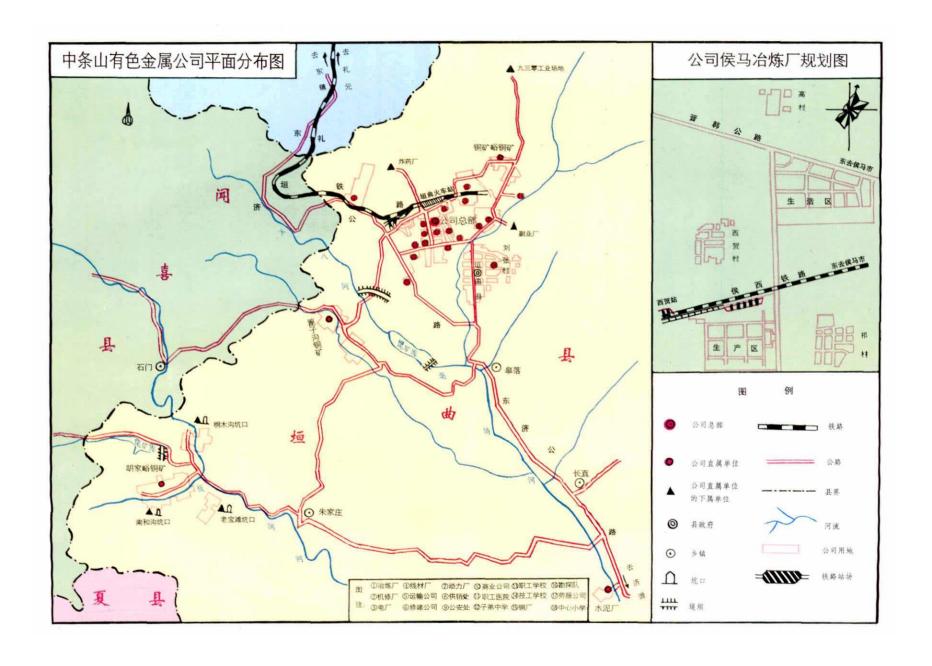

In the dawn of our socialist economic construction, Zhongtiaoshan, a mountainous area in still silence for ages, saw the first group of proud people devoting themselves to the new china's copper industry, and the only important copper industry base in north china —Zhongtiaoshan Non – Ferrous Metals Company was established, thus making this ancient land highlighted and full of new life and hope.

Time flies like an arrow and the seasons change fast. Zhongtiaoshan once witnessed a busy construction period with roar of blast and flow of heavy traffic. The Zhongtiaoshan people have been working underground from generation to generation with great enthusiasm, and a network of mining shafts and drifts have been developed and a great quantity of valuble ores extracted, therefore numerous everlasting monuments have been cast with their wisdom as well as blood and sweat.

Over the past 40 years, Zhongtiaoshan Non – Ferrous Metals Company has already produced 530 thousand tons of copper concentrate, 363 thousand tons of blister copper, 58 thousand tons of cathode copper, 6.517 thousand tons of copperwire, 599 thousand tons of sulphuric acid, 1.03 million tons of cement, more than 1200 tons of cobalt concentrate and considerable amount of gold and silver as well. All of these have not only indicated magnificent contributions to our socialist economic construction, but also added lustre to the development of china's non – ferrous metals industry.

We have made innumerable great achievements through thick and thin. However, yesterday has become history, and today we are full of confidence in an infinitely bright future for our company.

Here we'd like to take this occation to express our heartfelt hope that all the workers and staff keep our company's long – term grand plan in mind and make great efforts to set up a new milestone for a second bright period in the light of our enterprise spirit of "Be the master of Zhongtiaoshan company with devotion to it and create profit on one's own duty."
