PEKING UNION MEDICAL COLLEGE (PUMC) HOSPITAL

历史沿革 History of PUMC

北京协和医院是一所以医疗为基础,集医疗、教学、科研为一体的大型综合性医院,是协和医科大学的临床学院,中国医学科学院的临床医学研究所,是卫生部指定的全国疑难危重病诊断治疗中心之一。

北京协和医院历史悠久,在中国现代医学发展史上有重大贡献,其发展经历了几个重要的历史阶段:1921年,美国洛克菲勒基金会创办北京协和医学院附属医院;1951年,军委卫生部接管协和医院;1956年,中国医学科学院成立,协和医院是唯一的一所综合性医院;1959年,协和医大复校,协和医院是唯一的临床教学医院。

1921—1951年的协和是按美国的医学模式由美国人主办的“老协和”。那时筹办协和医院的都是美国一流的医学家和教育家,他们采用了当时最先进的办院标准和方法,至40年代初,医院已培育了一批出色人才,从而使北京协和医院声震海内外。

1951年,协和医院由党和政府接管以后,开始创办一个为人民服务、解决疑难重症的“新协和”。多年来,国家为医院的发展投入了相当的物力和财力,在党和政府的亲切关怀和支持下,医院在医、教、研诸方面的工作都取得了长足的进步。1991年,协和医院以较高分通过了三级甲等医院的评审,1992年被评为全国卫生系统先进单位。

historic stages. PUMC Hospital was founded in 1921 by Rockefeller Foundation of U.S.A. The Ministry of Public Health of Military Committee took over PUMC in 1951. In 1956 Chinese Academy of Medical Sciences was founded, and PUMC was the only one general hospital at the time. In 1959 Peking Union Medical College was reconstructed and PUMC hospital was the only one clinical teaching hospital affiliated to PUMC at that time.

From 1921 to 1951, the so-called “Old PUMC” was run by Americans according to the American Model. At that time American well-known medical scholars and specialists adopted advanced standards and approaches to run this hospital. By 1940's the hospital has trained lots of talents and PUMC had enjoyed high reputation.

In 1951, PUMC was taken over by the Party and government. A new “PUMC” was established, which began to serve the people and give treatment of severe and complicated cases. Our government has invested large numbers of financial and material resources in PUMC hospital and under the leadership and concern of the Party and government, the hospital has won great achievements in the respects of medical treatment, medical teaching and scientific researches. In 1991 PUMC Hospital was approved as “The Hospital of Class A in Grade 3”. In 1992 it was approved as “the Outstanding Unit of the National System of Public Health”.
