A)判断正误(共 5 小题, 每小题 1 分, 计 5 分)

根据短文内容, 判断下列句子的正(T)误(F)。

A lot of earthquakes happen in the world every year. Why do earthquakes happen? Scientists tell us the outside of the earth is made of a number of different plates (板块). The plates move very slowly. Sometimes they stop and don't move for a long time. When some of the earth's plates move suddenly, an earthquake happens.

Many earthquakes happen under the sea. Sometimes they happen near mountains. In fact, earthquakes may happen anywhere on the earth.

During an earthquake, the shakings make rocks rise suddenly and even break open. Houses fall. People are killed or hurt. Sometimes whole villages or cities are destroyed.

Can we do something to keep ourselves safe from earthquakes? Scientists have studied earthquakes and made maps that show "earthquake belts". In the areas in these belts, it's possible for earthquakes to happen. In these areas we can make houses strong enough to stand against earthquakes.

In the future, scientists will be able to predict (预言) exactly when and where an earthquake will happen. They can tell us what to do and how to do it as well.

- ()46. Few earthquakes happen in the world every year.
()47. The outside of the earth is made of a number of different plates.
()48. We can do nothing to keep ourselves safe from earthquake.

(共 10 小题，计 20 分)

(A)

It's important to learn things about protecting environment. Here's a 4Rs rule for us.

• **Reduce**

If you want to reduce waste, you should use things wisely (明智的). A large number of trees are being cut down to make paper. If everyone uses paper carelessly and then throws it away, soon we would not have any trees left. Some other things are also being wasted, and people don't know what to do with waste in big cities, so it's necessary to reduce waste.

• **Reuse**

You should always think of reusing the usable (可用的) things before throwing them away. Give your clothes or things you don't use to the poor. In a family, you may pass such clothes on to your younger brothers or sisters.

• **Recycle**

Bottles, cans and paper can easily be recycled. By doing so we save lots of time and money, for example, cola cans are sent to a factory, where they're smashed flat(压平) and smelted(熔化), and the metal things are made into new cola cans.

• **Repair**

If one of the legs of your table is broken, you can repair it. If you want to change for better ones, it's better for you to sell the old ones or give them to other people who can use them after doing some repair.

Imagine one day, the water taps(水龙头) in your house stop running. You have to buy water from shops. And still there isn't enough for everyone. Your mother has to save the family's shower water to do other things. Would you be able to stand that kind of life?

Probably not. But that's what kids in Yemen are experiencing. Experts said Yemen is going to be the first country in the world to run out of water. According to a report, the capital, Sana, will run out of drinking water as early as 2025.

Because of the shortage, the government often cuts the water supply(供应). Hannan, an 18-year-old from Lahej, told Times: "In a good week we'll have a water supply all week. But then the following week there will be water only for a day or two."

Hannan said only rich people have enough water to use. They can buy water from the shops or from the water trucks. Private companies own the trucks. They travel around the city every day to sell water—at very high prices. "A lot of people can't afford it," she said.

The average (平均) person in Yemen uses 100 to 200 cubic(立方) meters of water per year. That is far below the international water poverty(贫困) line of 1, 000 cubic meters.

The government is thinking of making use of seawater. But it will cost a lot and it may not happen soon enough to help the people of Yemen.

- () 56. _____ is the name of the capital city of Yemen.
A. Sana B. Lahej C. Hannan
- () 57. A report shows that Sana will have _____ as early as 2025.
A. enough drinking water to use B. no drinking water to use
C. no private companies D. more water pollution
- () 58. What does the underlined word "shortage" in the third paragraph mean in Chinese?
A. 充足 B. 短缺 C. 干旱
- () 59. We can infer(推断) from the passage that _____.
A. the poor don't have to worry about the water supply
B. the 18-year-old boy is from a poor family
C. private companies make a lot of money
- () 60. Which of the following do you think is the best title for this passage?
A. Yemen is Facing Serious Water Shortage
B. How to Save Water
C. How People Use Water Fully

C) 回答问题(共5小题, 计10分)

阅读下面的短文, 然后根据短文内容回答问题。

Have you heard about "Survival (生存) Holidays"? "Survival Holidays" is for children to go into the lonely place for exciting activities. Now about 1, 100 companies are allowed to take children into the great outdoors without their parents.

The reason why people like "Survival Holidays" is that they think being close to nature is good for children. Many children in big cities spend all time watching TV and playing computer games. "Survival Holidays" gives them an important change.

Is "Survival Holidays" a wonderful idea? Maybe it is. Children need more free time to play. They need to be left on their own, without adults disturbing (打扰) them. Parents care too much about their children. They like to see the children being busy with activities that are controlled by adults, but children don't know what to do when they are in danger. Even some-

thing like crossing a small river seems to be a hard challenge. Children are not comfortable with danger. Even small danger like getting their feet wet or falling down seems very terrible to them.

Many people think the survival activities are good for children. Even years later, they will still remember what they have learned. Some have learned to stay calm in different times. Some have learned how to keep safe. Others have learned how to work in a team. All these skills will help them a lot in their lives.

61. Is “Survival Holidays” for children or parents?

62. Why do people like “Survival Holidays”?

63. What do the children in big cities usually do?

64. How do children feel when they are in danger?

65. What can children learn in the survival activities?

Lucy—I am one year older than Linda. *Denmark is my country.* A flag is flown outside a window to show that someone who lives in that house is having a birthday. Presents are placed around the child’s bed while they are sleeping so they will see them at once when they wake up.

Tom—I am as old as Linda. I am from Brazil. The birthday child receives a pull on the earlobe(耳垂) for each year in my country. The birthday person also gives the first slice of cake to his/her most special friend or relative, usually mom or dad.

C) 回答问题(共 5 小题, 计 10 分)

阅读下面的短文, 然后根据短文内容回答问题。

Dear John,

Thank you very much for your letter. I'm glad that you enjoyed your holiday with me. We enjoyed having you and your sister here. We hope that you will both be able to come again next year. Perhaps you'll be able to stay longer next time you come. A week is not really long enough, is it?

I hope you are both working hard now that you're in Grade Three. I shall have to work hard next year when I am in Grade Three. Tom and Ann will be in Grade Three the year after next.

They went on a picnic yesterday but I didn't go with them because I hurt my foot and I couldn't walk very well. They went to an island and enjoyed themselves there. Do you still remember the island? That's where all five of us spent our holiday.

Tom, Ann and I send our best wishes to Betty and you. We hope to see you soon.

Yours sincerely,
Michael
