Jack was a hardworking businessman. He worked as a manager in a big company. He was responsible for the sales department. He was so busy that he sometimes took work home to do.

One day, Jack had to prepare for a meeting. So he took some work home to complete. While he was working, his 5-year-old son, Tim, came to talk to him every few minutes. He had to stop working and he couldn't focus. After several such breaks, Jack got an idea. He found that there was a map of the world in the evening paper. He showed the map to Tim. Then he cut it into pieces

and told Tim to put the map together again. He thought this would keep Tim busy for a long time and he could complete his work. However, in about 4 minutes Tim excitedly told Jack he had finished the task. Jack was surprised and asked the boy how he had done it so quickly. Tim said, "There was a picture of a man on the other side of the newspaper. So I just turned it over and put the man together. When I got the man right, the world was right."

- () 41. Jack worked _____.
- A. in a bank B. in a hospital C. in a big company D. on a farm

There are many wetlands (湿地) in China and some of them have become the world's important wetlands. The Chinese Yellow Sea Wetlands are among them. They are in Yancheng, the east part of Jiangsu Province. They are home for many different kinds of birds and animals. The world's largest Milu Deer Nature Reserve (麋鹿自然保护区) is in them. More than 700 Milu deer live freely there. There are not many red-crowned cranes (丹顶鹤) in the world, but every winter you can see some in the Red-crowned Cranes Nature Reserve of the Yellow Sea Wetlands.

The temperature in the wetlands is usually neither too high nor too low. There is a lot of rain and sunshine, too. They are really good places for wildlife. Offering food and home for some special kinds of animals and birds is not only the reason why we need to protect wetlands. Wetlands are important because they also prevent flood (洪水). But some people want to change the wetlands to make more space for farms and buildings. This means there will be less and less space for wildlife.

Luckily, more and more people are beginning to realize the importance of wetlands and wildlife. Every year, on February 2nd, many activities are held to tell people more about wetlands.

- () 45. The Chinese Yellow Sea Wetlands are in the _____ of China.
- A. east B. south C. west D. north
- () 46. Usually the weather in the wetlands is _____.
- A. hot B. pleasant C. cold D. dry
- () 47. The World Wetlands Day is on _____.
- A. April 22 B. June 25 C. February 2 D. March 22
- () 48. We must protect wetlands because _____.
- A. they are homes for wildlife B. they can prevent flood
C. they can offer food to the animals and birds D. all of the above

C

If you get into the forest with your friends, stay with them always. If you don't, you may get

lost. If you really get lost, this is what you should do. Sit down and stay where you are. Don't try to find your friends——let them find you by staying in one place.

There is another way to help your friends or other nearby people to find you. Give them a signal (信号) by shouting or whistling (吹口哨) three times. Any signal given three times is a call for help.

Keep up shouting or whistling always three times together. When people hear you, they will know that you are not just making noise for fun. They will let you know that they have heard your signal. They give you two shouts, two whistles, or two gun-shots (枪声). When someone gives you a signal, it is an answer to a call for help.

If you don't think that you will get help before night comes, try to make a little house——cover up to the holes with branches (树枝) with lots of leaves. Make yourself a soft bed with leaves and grass.

What should you do if you get hungry or need drinking water? You would have to leave your little house to look for a river. Don't just walk away. Pick off small branches and drop them as you walk so that you can find your way back. The most important thing to do when you are lost is——stay in one place.

- () 49. If you lost in the forest, you should _____.
- A. stay where you are and give signals three times
B. walk around the forest and shout so that your friends could hear you
C. try to find your friends as soon as possible
D. try to get out of the forest and shout for help
- () 50. When you hear two shouts, or whistles, or gun-shots, _____.
- A. you should shout more loudly
B. you can whistle three times
C. it is an answer to your call for help
D. you should try to run to them
- () 51. When you want to leave your place to get drinking water, you should _____.
- A. just go to the river
B. find some glasses or bottles before you go
C. make a fire so that you can have some tea
D. leave marks so that you can find your way back
- () 52. This passage mainly tells you _____.
- A. when you hear a signal always three times, it is a call for help
B. what you should do if you get lost in a forest
C. any signal given twice means an answer to a call for help
D. how you can live longer in a forest

D

A green classroom used to be a classroom whose walls were green. But today's green classrooms are greener than that! New "green" classrooms help schools save money and provide a clean environment where students learn better.

Many classrooms are going green by adding solar panels (太阳能板) to their roofs. The solar panels collect energy from the sun and use it to power lights and computers. The panels help create at least as much electricity as the classrooms use. They can also reduce energy costs (能源成本).

Many new "green" classrooms are built by using recycled things, such as old blue jeans.

Green schools have other new ideas. Some classrooms are painted with special paints that help

improve indoor air quality (质量). Some use windows that help keep classrooms warm in cold weather and let in lots of natural daylight. Others no longer use glues that add chemical smells to the air.

Experts say the new “green” classrooms are good for education. Studies show that a healthful environment with good air can cut colds and flu by more than 50%. That means fewer sick days for students and teachers. Studies also show that natural light and other green features (特点) improve students’ learning and grades in test.

- () 53. Solar panels can do the following things EXCEPT _____.
- A. collect energy from the sun B. reduce energy costs
C. keep classrooms cool D. create electricity
- () 54. _____ can be used to make the air in the classroom better.
- A. Special paints B. Blue jeans C. Windows D. Glues
- () 55. The new “green” classrooms _____ according to the passage.
- A. always have green walls B. can produce natural daylight
C. can stop kids getting colds D. can help kids get good grades
- () 56. The best title for the passage is “ _____ ”.
- A. Green classrooms in the future B. Classrooms are growing greener
C. How to improve students’ learning D. How to build green classrooms

You may eat apples every day, but do you know there are three apples that are especially important to the history of human beings and have changed the whole world?

Long long ago when the world was just created, the apple was a forbidden(被禁止的) fruit in the Garden of Eden(伊甸园). However, a woman named Eve stole and ate one. As a result, she was driven away by God from the Garden together with a man called Adam. Then Adam and Eve had their own babies and became the ancestors of human beings.

In the autumn of 1665, there was a young scientist called Newton sitting under an apple tree in his garden. While he was thinking of a problem, an apple suddenly dropped onto his head. Because of the accident, Newton discovered gravitation(万有引力). He changed the opinions about nature at that time, and then people began to know what science was.

And today, Steve Jobs, a crazy man, changed the world with his Apple products. iPhones and iPads can be found everywhere, and young people feel cool when they use these high-tech products. Don't you think that Apple products have become a symbol of our time? Steve Jobs made our life more colorful and beautiful.

Hello, everyone. Because of the high rate of school violence (暴力) in some areas, teenagers' safety becomes a serious problem. We are planning to set up an organization named School Watch

to make sure that students have a safe school environment. Please be part of our plan!

What is School Watch?

School Watch is a volunteer project in our school. It helps us stop violence and improve the quality of school life. It will keep yourself and your schoolmates safe. The other members of School Watch care for you and your classroom, and you do the same for them.

Is it for everyone?

Anybody can become a member of School Watch because everyone has something to offer.

What else can it do?

School Watch makes it possible for us not only to help each other but also to make friends with each other. Some members may offer to help the schoolmates who have problems with their homework.

Who is the Best School Watcher?

Our school will look for the Best School Watcher and give him or her lots of prizes. You could be the one!

How do you start?

To be part of this plan, the only thing you need to do is to talk to the director of the plan in your grade. You can check the official website at *www.schoolwatch.com* if you want to get more information.

- () 41. School Watch can help its members _____.
- A. save the environment B. go to school on time

Are You Right Handed or Left Handed?

Which hand do you use when write? About 8 to 15 percent of people are left handed. They often have to use tools that are designed for right-handed people. So it is difficult for left-handers to use most tools. If you are right handed, try this experiment: take a knife with your left hand and try cutting a potato into pieces. Don't be surprised if you feel awkward (别扭的).

In the past, people thought it was strange to use the left hand. Young students looked down upon their left-handed classmates. Some children were even punished for using their left hand to write. But these days parents and teachers have accepted that. In almost every school in the world, left-handed students can use their left hand to write.

What causes people to be left handed or right handed? Experts have searched long and hard on this. They conclude (得出结论) that left-handed people are left handed for the same reason that right-handed people are right handed. One out of every ten people just is a left-handed people are right handed. One out of every ten people just is a left-hander. It's simply like the color of our eyes some people have brown eyes, while some others have black eyes.

However, many researchers think that left-handers and right-handers are different in some aspects. Right-handers are more talkative and outgoing than left-handers. Many right-handed people understand spoken words better. For example, after they listen to directions to a supermarket, they can find it easily. Right-handers are good at organizing people, too. They are also better basketball guards. Just as Yao Ming.

Research shows that left-handers are creative and artistic. Many famous performers, like Jim Carrey and Paul McCartney, are left handed. Many left-handers learn better visually (在视觉方面). In art, both Leonardo da Vinci and Michelangelo were left handed. In music, Ludwig van Beethoven was left handed. In science, you find Newton and Einstein. The left-handed people are also really good at tennis and other single sports.

If you prefer one hand, but you are still good at writing with the other, you are mixed. Research shows mixed-handers can remember everyday things better than other people. What did you eat for lunch two weeks ago? If you're mixed handed, you can probably remember.

Rob Frenette had problems with bullies (欺辱) at school for eleven years. He was often lonely and scared. When he was fifteen, however, he decided to do something about his problems. He walked into a newspaper office and told them about the bullying. His story went into the newspaper and soon all the TV stations in Canada wanted to talk to him about his experiences. They also wanted to hear his ideas to stop bullying.

After that, Rob continued his studies at school, but in his free time he helped other people with bullying problems. With a friend Katie Neu, he made a website called *www.bullyingcanada.ca*. Visitors to the website can find advice, stories and poems about bullying, in both English and French. When people are upset, they can talk on the phone or online to Rob and his team. Every weekend Rob has to answer e-mails to the website. He also speaks to children, teachers and members of government around the country about bullying.

Rob's most important message is: "When bullies are unkind to you, it isn't your fault. There's nothing wrong with you, so you should try to keep trusting yourself. And remember that people care about your problems. You just have to find those people."

One of Rob's ideas is "Blue Day", a special day for stopping bullying in schools. Students have to wear blue clothes and in class they learn how to stop bullying. More than 150 Canadian schools now celebrate Blue Day, but Rob won't stop until there's a Blue Day in every school in Canada.

- () 53. How did Rob often feel at school before he was fifteen?

A TV program has become popular in China recently. It has made people all over China become interested in writing Chinese characters (汉字).

The use of computers and smart phones has left most young people hardly able to write by hand. Many of them are even unable to remember the 10,000 characters used in daily life.

CCTV started the Chinese Character Dictation Competition to improve the population's handwriting skills. Contestants (参与者) on the show were school pupils, but it was found that 70 % of adults in the audience (观众) were unable to remember how to write the word "chan chu".

Because computers allow people to type (输入) characters simply by entering pinyin, they don't need to remember how to write them. "The keyboard age has had a big influence on the handwriting of Chinese characters." Guan Zhengwen, the director of the show said. He added that he hoped to encourage people to keep practicing writing Chinese characters.
