THE INDICES OF THE COMMODITY-PRICES AND THE COST OF LIVING OF PEIPING Monthly

No. 1.

Nov. 1947.

Preface

The indices of commodity-prices and the cost of living of Peiping from Jan 1946 to June 1947 had been published in the Peiping Municipal Statistics Monthly in July, 1947, as compiled by the Statistic Office of Peiping Municipal Government. Recently because of the tremendous changes of prices of commodities, we have therefore revised this booklet to indicate the real conditions of such changes. It will be published monthly afterwards.

The index number is used to express the fluctuation of complex substances with Simple figures; its essence Consisting of the comparation of different partods and places. This edition is compiled according to the "Outlines of the Investigation and Statistics of Price" and the "Principles of the Compilation of the Cost of Living of the Government Services" which are issued by the Directorate General of Budgets, Accounts and Statistics. Therefore, it forms the basis for comparison with the other indices as compiled by the other Provincial and Municipal Government.

This booklet only indicates the primary data of this locality. As to the advanced statistical analysis, they will be compiled afterwards if necessary. Criticism and advice, however, are welcome.
