Leonardo da Vinci began painting(**绘画**)the Mona Lisa in 1503. He was working on a special painting for a church(**教堂**)at the time, but the church painting was not going well. An Italian bus asked da Vinci to paint a picture of the businessman's second wife. This is the woman who can be seen in the Mona Lisa.

All in all, the Mona Lisa is a very good example of da Vinci's work. Da Vinci uses darkness and light in a clever way in the painting.

Da Vinci loved science and math. Right away a person can see that there is a lot of geometry (**何**)in the Mona Lisa. The face of the Mona Lisa is made of many circles and round shapes like balls. Even her smile can be

seen as a small part of a large circle.

The woman in the painting is sitting on a balcony(**阳 台**), and mountains can be seen behind her. Da Vinci loved to study rocks and mountains, so these can be seen over and over in his other paintings.

The woman is sitting with her knees to the side. Her head is turned to look out of the painting Her hands are held together in front of her. This way of silting is now used by many artists when they ate painting a picture of a man or woman today.

C

February 14 is a day for people who have fallen in love. On this day, these man and women give gifts(presents) and cards to each other for Valentine's Day(**情人节**).

This day has been popular with people in love for a long time. At first, this holiday was called Lupercalia. Then the name of the day was changed to Saint Valentine's Day. The man names Saint Valentine was killed on February 14, 270 A.D.because he was a Christian(**基督教徒**).

Before Saint Valentine was killed, February 14 was the old Roman holiday, Lupercalia. The wanted people to think of a Christian holiday on this day, so the church changed the name of the holiday.

This change did not stop people in love from giving gifts to each other. People usually gave gloves, handkerchiefs, or even underwear as gifts. Sometimes people also put
