前言

编写宗旨

《大学英语》全新版系列教材是近年来问世的一批质量高、内容新的大学英语教材之一。这套教材选材新颖、时代感强,具有较强的趣味性、信息性和前瞻性。同时教材的编写也注意了文体的多样性和语言的规范性,充分体现了《大学英语教学大纲》(修订本)的教学思想、教学目的和要求。因此,一经出版就引起大学英语教育界的关注和欢迎,被越来越多的高校采用。

在大学英语教学活动中,“练习与测试”是必不可少的重要组成部分。俗话说,“熟能生巧”,大量有的放矢的练习是巩固所学知识的最佳途径,而适时有效的测试则会使学生及时了解自己学习的效果,以便为提高英语运用能力夯实基础。为了帮助广大学生更有效地使用这套教材,并随时巩固和检验学习效果,我们组织编写了这套《大学英语》全新版——单元练习与测试辅导丛书。丛书紧扣《大学英语》全新版·综合教程的教学内容与要求,能更好满足学生“学而时习之”的要求。

结构与特色

本系列丛书共分四册,分别与《大学英语》全新版·综合教程的员·源册教材相匹配。每册书由五大部分构成:

- ▶ Part One——语法与词汇题:有四种题型,其中包括构词、选择、辨析和改错等练习。
- ▶ Part Two——语言运用题:主要是以填空形式来体现的练习题,包括自主填空和选择填空两种题型。
- ▶ Part Three——阅读理解题:包括选择题和简答题两种题型。
- ▶ Part Four——翻译训练题:在这部分里,除了常规的英汉互译以外,编者还加进了系列的翻译方法指导,帮助学生了解基本的翻译技巧,以提高翻译能力。
- ▶ Part Five——写作练习题:根据目前大学生写作能力较低的现状,编者设

计了“运用标点符号、改写”等练习,并以“句子→段落→篇章”的渐进形式进行实际操练。

- 单元测试:共两套,TEST ONE 涵盖了“Unit One ~ Unit Four 的所有语言点”,TEST PAPER TWO 涵盖了“Unit Five ~ Unit Eight 的所有语言点”。

本系列丛书的每册练习项目均相同,主要侧重于读写技能的训练。练习形式力求多样化,既有判断型的客观类习题,也有输出型的主观类习题。两套自测试题的设计,主要是方便学生对自己的学习效果进行评估。此外,书中还配有答案和详细的注释。本书选材力求典型、新颖、全面,语言材料来自报刊、网络以及其他同类型参考书。

本套丛书由宁月瑾负责策划;由王惠莲、刘军显、李保军负责主编;牟爱鹏、陈英负责最终校对。参加第二册编写的还有(按姓氏笔画排列)王惠莲、刘永芳、牟爱鹏、孙中玲、孙明磊、李保军、陈英、张国钢、张艳丽、徐惠芬、管廷祥、靖凌云。

在编写人员中多数编者具有多年的一线教学经验,编写过程中,全体参编者互相切磋、及时交流、密切配合,努力使本套丛书达到预期的效果。尽管如此,由于编者经验、水平有限,谬误之处必有显现,敬请同行专家不吝指教,以便改进。

Learning a language is , in some ways , like learning how to fly , to play the piano or to drive a car . There are some important differences , but there is one very important similarity (相似之处) . It is this : learning how to do such things needs lots of practice . It is never enough simply to know something . It is more important for you to do things with what you know . For example , it is not enough simply to read a book on how to fly a plane . A book can give you lots of information about how to fly , but if you only read the book and then try to fly without a great deal of practice first , it 'll be very dangerous . You 'll crash and get killed . The same is true of playing the piano . Do you think it is enough simply to read a book about it ? Can you play the piano without doing lots of practice first ? It 's also true of driving a car . People can explain to you how to drive a car in ten minutes or less , but it 'll take you months to become a really good driver .

You may think it is enough simply to know some grammar rules or the meanings of words. But no one can learn a language in that way. It isn't just grammar or vocabulary that enables you to use a language correctly and without difficulty.

You are an English student. It is necessary for you to listen to English and to practise

Papousek began his studies by using milk in the normal way to “reward” the babies and so teach them to carry out some movements, such as turning the head to one side or the other. Then he noticed that a baby who had had enough to drink would refuse the milk but would still go on making the learned response with clear signs of pleasure. So he began to study the children’s responses in situations where no milk was provided. He quickly

found that children as young as four months would learn to turn their heads to right or left if the movement “turned on” some lights—and indeed that they were able to learn some more turns to bring about this result, for example, two left or two right, or even to make as many as three turns to one side.

Papousek's light experiment was placed directly in front of the babies and he made the interesting observation that sometimes they would not turn back to watch the lights closely although they would “smile and speak” when the light was on. Papousek concluded that it was not the sight of the lights which pleased them, it was the success they were achieving in solving the problem, in mastering the skill, and then there is a basic human nature to make sense of the world and bring it under control.

远 According to the author, babies learn to do things which _____.

- A. will satisfy their curiosity
- B. will meet their physical needs
- C. are directly connected to pleasure
- D. will bring them a feeling of success

苑 Papousek noticed in his studies that a baby _____.

- A. would make learned responses when it saw the milk
- B. would continue the simple movements without being given milk
- C. would turn its head to right or left when it had enough to drink
- D. would carry out learned movements when it had enough to drink

愿 The babies would “smile and speak” at the lights because _____.

- A. they succeeded in “turning on” the lights
- B. the sight of the lights was interesting
- C. they need not turn back to watch the lights
- D. the lights were directly connected to some basic “drives”

怨 In Papousek's experiment babies make learned movements of the head in order to _____.

- A. be rewarded with milk
- B. have the lights turned on
- C. please their parents
- D. be praised

苑 According to Papousek, the pleasure babies get in achieving something is a reflection of _____.

- A. a basic human desire to understand and control the world
- B. the satisfaction of certain physiological needs
- C. their strong desire to solve complex problems
- D. a basic human desire to display their learned skills

All over the world, the move from secondary school to university brings on new challenges in the learning process. Students usually live far away from the support and disci-

Different subjects require different study habits. Learning a language , for instance , is a slow cumulative (积累的, 累加的) process. It is impossible to become fluent (流利的, 流畅的) in English , for example , in a short time. Studying literature is not like solving a mathematical problem. A lot of memorization may be very necessary in some courses but useless and inappropriate in others.

Students often become very discouraged when they start comparing themselves to other students. It is always possible to find someone who is able to achieve results much faster than oneself. However, one of the keys to productive studying is to find and to accept one's own pace. Some people take more time to do things than others, but that does not mean they are less intelligent. Different people have different abilities and very few people excel without hard work.

16. What new challenges do students moving from secondary school to university usually face?

鯢 “Changing from a big fish in a little pond to a small fish in a big pond ” means a top student in secondary school

例 The author developed his idea “different subjects require different study habits ” by two examples :

(源) He must be able to deal with all kinds and conditions of men and see every point of views. (缘) He must serve many masters with equal loyalty, and he must no longer defend the interests of his own country but take on the problems of the world.

苑 (员) Americans might be embarrassed because their Japanese friends are so formal with them. (圆) Japanese might feel insulted because American acquaintances greet them casually. (猿) Still, the forms of greeting in both countries only show respect for others. (源) It just happens that Americans and Japanese have a different way of looking at human relationships and thus have a different way of showing respect.

苑 (员) English is full of words that have gradually changed their meanings. (圆) One example is the word "graft". "To graft" meant merely "to work." (猿) English people once used the word in such expressions as "Where are you grafting" meaning "Where are you working?" (源) From this perfectly respectable meaning, the word has gradually changed. (缘) Today "graft" refers to illegal gains won by dishonest politicians.

愿 (员) The assumption that budget (预算) cuts should be made in our social service programs needs careful consideration. (圆) In 苑苑 there were three half-way houses for the needy in our city; in 苑苑 there were two, and today we have only one. (缘) These facts seem to indicate that instead of reducing our social welfare budget, we should significantly increase it.

愿 (员) Good manners are important in all countries but ways of expressing good manners are different from country to country. (圆) Americans eat with knives and forks; Japanese do not. (猿) On the surface, it appears that good manners in America are not good manners in Japan, and in a way this is true. (源) But in any country, the only manners that are important are those involving one person's behaviour toward another person. (缘) In all countries it is good manners to behave considerately toward others and bad manners not to. (远) It is only the way of behaving politely that differs from country to country.
